

# Raising the Bar on Math and Statistics in the Classroom

Now available, Census of Agriculture lesson plans for grades K-12. All materials are FREE and meet National Agriculture, Food and Natural Resources (AFNR) Standards.

Lesson plan objectives include:

- Discover new trends in agriculture based on statistics
- Describe the usefulness of statistics in the food and agriculture industry
- Use USDA's National Agricultural Statistics Service website

Also available are outreach kits for teachers and students to use for:

- Increasing community awareness about the Census of Agriculture
- Creating classroom activities and community service projects

To access the FREE K-12 classroom materials:

Visit [www.ffa.org/ffaresources/ffalearn](http://www.ffa.org/ffaresources/ffalearn)

- Click "Census of Agriculture Instructional Materials"

or

- Search FFA Learn for "Census of Agriculture"
