

Peanut Stocks and Processing

ISSN: 1949-1875

Released December 27, 2024, by the National Agricultural Statistics Service (NASS), Agricultural Statistics Board, United States Department of Agriculture (USDA).

Shelled Edible Grade Season to Date Utilization Down 2 Percent from Last Year Peanut Stocks in Commercial Storage Totaled 4.22 Billion Pounds

Peanut stocks reported in commercial storage on November 30, 2024 totaled 4.22 billion pounds of equivalent farmer stock, compared with 4.35 billion pounds a year ago. This total includes 3.63 billion pounds of actual farmer stock.

Shelled peanuts on hand totaled 549 million pounds of farmer stock equivalent. Roasting stock totaled 37.6 million pounds.

Shelled peanut stocks totaled 413 million pounds of which 384 million pounds were edible grades and 28.5 million pounds were oil stocks. Edible grade stocks by type included 53.1 million pounds of Virginias and Valencias, 300 million pounds of Runners, and 31.2 million pounds of Spanish.

Millings in November totaled 403 million pounds. Millings by type were 49.7 million pounds of Virginias and Valencias, 343 million pounds of Runners, and 10.4 million pounds of Spanish.

Commercial processors utilized 196 million pounds of **shelled edible** grade peanuts during November. Utilization by type was 121 million pounds for all peanut butter products, 32.6 million pounds for peanut candy, and 33.3 million pounds for peanut snacks. **Crushing** for oil and cake and meal totaled 50.3 million pounds during the month.

Deliveries under the Government Domestic Feeding and Child Nutrition Programs amounted to 2.14 million pounds of peanut butter and 77,760 pounds of roasted peanuts during November.

Stocks of treated seed on hand November 30, 2024 totaled 249,000 pounds, compared with 249,000 pounds on October 31, 2024. Of the November total, 22,000 pounds were Runners. October stocks of treated seed included 22,000 pounds of Runners.

Stocks estimates refer to November 30, 2024. All other data are for the month of November.

Statistical Methodology

Survey Procedures: The peanut stocks and processing estimates in this report are based on a survey conducted during the first three weeks of the month. The survey is required by law under Title 7 of the United States Code (7 U.S.C. 951, 2010). Peanut stocks are a census of all known cleaners, shellers, crushers, warehouses, cold storage plants, and processors of peanuts who handle more than 30,000 pounds annually. Every effort is made to obtain a report from all facilities.

Estimating Procedures: Since a complete report is not always received from all facilities, estimates are made for missing facilities to assure complete coverage. Peanut stocks survey data are reviewed at the national level for reasonableness and consistency with historical estimates.

Revision Policy: Peanut stocks are subject to revision at any time during the marketing year. Revisions can be made when late reports are received and errors are detected in reporting and calculating. Once the marketing year ends, no revisions can be made to the previous marketing year.

Reliability: The peanut stocks and processing survey is subject to non-sampling errors such as omission, duplication, imputation for missing data, and mistakes in reporting, recording, and processing the data. These errors cannot be measured directly, but are minimized through rigid quality controls in the data collection process and a careful review of all reported data for consistency and reasonableness.

Information Contacts

Listed below are the commodity statisticians in the Crops Branch of the National Agricultural Statistics Service to contact for additional information. E-mail inquiries may be sent to nass@usda.gov.
