

2022 Ag Census Web Maps Documentation

Geographic Level:

County and county-equivalent entities. For data collection purposes, some county-equivalent boundaries in Alaska, Hawaii, Maryland, Missouri, and Virginia were modified by combining together specific county-equivalent entities. Each county and county-equivalent entity has a name and a NASS 5-character code (2-character state code + 3-character county code).

Map Title

y22_M106

Irrigated Corn for Grain, Harvested Acres, as Percent of Corn for Grain, Harvested Acres: 2022

Choropleth map showing harvested acres of irrigated corn for grain as percent of harvested acres of corn for grain in 2022. There are 6 categories. Darker colors represent higher percentages. The darkest category is 90 percent or greater. Counties with higher values are in the Western and Southern states. United States: 13.6 percent.

y22_M107

Acres of Corn Harvested for Grain as Percent of Harvested Cropland Acreage: 2022

Choropleth map showing acres of corn harvested for grain as percent of harvested cropland acreage in 2022. There are 6 categories. Darker colors represent higher percentages. The darkest category is 45 percent or greater. Counties with higher values are primarily in the Corn Belt. United States: 26.7 percent.

y22_M108

Acres of Corn for Silage or Greenchop Harvested as Percent of Harvested Cropland Acreage: 2022

Choropleth map showing harvested acres of corn for silage or greenchop as percent of harvested cropland acreage in 2022. There are 6 categories. Darker colors represent higher percentages. The darkest category is 25 percent or greater. Counties with higher values are in the Northeastern states, Idaho, Florida, Michigan, New Mexico, Washington, Texas, and Wisconsin. United States: 2.0 percent.

y22_M109

Irrigated Sorghum for Grain, Harvested Acres, as Percent of Sorghum for Grain, Harvested Acres: 2022

Choropleth map showing harvested acres of irrigated sorghum for grain as percent of harvested acres of sorghum for grain in 2022. There are 6 categories. Darker colors represent higher percentages. The darkest category is 80 percent or greater. Counties with higher values are in the Western states, Central and Southern Great Plains states, and Great Lakes states. United States: 7.1 percent.

y22_M110

Acres of Sorghum Harvested for Grain as Percent of Harvested Cropland Acreage: 2022

Choropleth map showing acres of sorghum harvested for grain as percent of harvested cropland acreage in 2022. There are 6 categories. Darker colors represent higher percentages. The darkest category is 30 percent or greater. Counties with higher values are in Colorado, Kansas, Oklahoma, and Texas. United States: 1.6 percent.

y22_M111

Irrigated All Wheat for Grain, Harvested Acres, as Percent of All Wheat for Grain, Harvested Acres: 2022

Choropleth map showing harvested acres of irrigated all wheat for grain as percent of harvested acres of all wheat for grain in 2022. There are 6 categories. Darker colors represent higher percentages. The darkest category is 85 percent or greater. Counties with higher values are in the Western states, South Central states, Southeastern states, and Nebraska. United States: 5.7 percent.

y22_M112 Acres of All Wheat Harvested for Grain as Percent of Harvested Cropland Acreage: 2022

Choropleth map showing acres of all wheat harvested for grain as percent of harvested cropland acreage in 2022. There are 6 categories. Darker colors represent higher percentages. The darkest category is 60 percent or greater. Counties with higher values are in the Northwestern, Rocky Mountain, and South-Central states. United States: 12.3 percent.

y22_M113 Acres of Barley Harvested for Grain as Percent of Harvested Cropland Acreage: 2022

Choropleth map showing acres of barley harvested for grain as percent of harvested cropland acreage in 2022. There are 6 categories. Darker colors represent higher percentages. The darkest category is 25 percent or greater. Counties with higher values are in Idaho, Colorado, and Wyoming. United States: 0.8 percent.

y22_M114 Acres of Oats Harvested for Grain as Percent of Harvested Cropland Acreage: 2022

Choropleth map showing acres of oats harvested for grain as percent of harvested cropland acreage in 2022. There are 5 categories. Darker colors represent higher percentages. The darkest category is 10 percent or greater. Counties with higher values are in in the Great Lakes states, Idaho, Texas, and Maine. United States: 0.3 percent.

y22_M115 Acres of Rice Harvested as Percent of Harvested Cropland Acreage: 2022

Choropleth map showing acres of rice harvested as percent of harvested cropland acreage in 2022. There are 6 categories. Darker colors represent higher percentages. The darkest category is 40 percent or greater. Counties with higher values are in Arkansas, California, Louisiana, and Texas. United States: 0.8 percent.

y22_M116 Acres of Rye Harvested for Grain as Percent of Harvested Cropland Acreage: 2022

Choropleth map showing acres of rye harvested for grain as percent of harvested cropland acreage in 2022. There are 5 categories. Darker colors represent higher percentages. The darkest category is 7 percent or greater. Counties with higher values are in the Southeast states, and Oklahoma, and Texas. United States: 0.2 percent.

y22_M117 Acres of Sunflower Seed (Oil Varieties) Harvested as Percent of Harvested Cropland Acreage: 2022

Choropleth map showing harvested acres of oil varieties of sunflower seed as percent of harvested cropland acreage in 2022. There are 5 categories. Darker colors represent higher percentages. The darkest category is 12 percent or greater. Counties with higher values are in North and South Dakota. United States: 0.5 percent.

y22_M118 Acres of Sunflower Seed (Non-Oil Varieties) Harvested as Percent of Harvested Cropland Acreage: 2022

Choropleth map showing harvested acres of non-oil varieties of sunflower seed as percent of harvested cropland acreage in 2022. There are 4 categories. Darker colors represent higher percentages. The darkest category is 4 percent or greater. Counties with higher values are in South Dakota. United States: 0.04 percent.

y22_M119 Acres of Canola Harvested as Percent of Harvested Cropland Acreage: 2022

Choropleth map showing harvested acres of canola as percent of harvested cropland acreage in 2022. There are 5 categories. Darker colors represent higher percentages. The darkest category is 15 percent or greater. Counties with higher values are in North Dakota. United States: 0.7 percent.

y22_M120 Acres of All Cotton Harvested as Percent of Harvested Cropland Acreage: 2022

Choropleth map showing harvested acres of all cotton as percent of harvested cropland acreage in 2022. There are 6 categories. Darker colors represent higher percentages. The darkest category is 60 percent or greater. Counties with higher values are in the South Central, and Southeastern states. United States: 2.6 percent.

y22_M121 Irrigated All Cotton, Harvested Acres, as Percent of All Cotton, Harvested Acres: 2022

Choropleth map showing harvested acres of irrigated all cotton as percent of harvested acres of all cotton in 2022. There are 6 categories. Darker colors represent higher percentages. The darkest category is 80 percent or greater. Counties with higher values are in the Southwest, South Central, Mississippi Delta, and Southeast states. United States: 34.6 percent.

y22_M122 Acres of Upland Cotton Harvested as Percent of Harvested Cropland Acreage: 2022

Choropleth map showing harvested acres of upland cotton as percent of harvested cropland acreage in 2022. There are 6 categories. Darker colors represent higher percentages. The darkest category is 50 percent or greater. Counties with higher values are in the Southeastern states and Texas. United States: 2.5 percent.

y22_M123 Acres of Pima Cotton Harvested as Percent of Harvested Cropland Acreage: 2022

Choropleth map showing harvested acres of pima cotton as percent of harvested cropland acreage in 2022. There are 5 categories. Darker colors represent higher percentages. The darkest category is 20 percent or greater. Counties with higher values are in the Southwest states. United States: 0.06 percent.

y22_M124 Acres of Tobacco Harvested as Percent of Harvested Cropland Acreage: 2022

Choropleth map showing harvested acres of tobacco as percent of harvested cropland acreage in 2022. There are 6 categories. Darker colors represent higher percentages. The darkest category is 12 percent or greater. Counties with higher values are in the North Carolina. United States: 0.07 percent.

y22_M125 Irrigated Soybeans for Beans, Harvested Acres, as Percent of Soybeans for Beans, Harvested Acres: 2022

Choropleth map showing harvested acres of irrigated soybeans for beans as percent of harvested acres of soybeans for beans in 2022. There are 6 categories. Darker colors represent higher percentages. The darkest category is 80 percent or greater. Counties with higher values are in the Central and Southern Great Plains, and Eastern Arkansas. United States: 10.5 percent.

y22_M126 Acres of Soybeans Harvested for Beans as Percent of Harvested Cropland Acreage: 2022

Choropleth map showing acres of soybeans harvested for beans as percent of harvested cropland acreage in 2022. There are 6 categories. Darker colors represent higher percentages. The darkest category is 45 percent or greater. Counties with higher values are in the in the Corn Belt, Mississippi Delta, Upper Midwest, and Mid-Atlantic states. United States: 28.1 percent.

y22_M127 Acres of Dry Edible Beans, Excluding Chickpeas and Limas, Harvested as Percent of Harvested Cropland Acreage: 2022

Choropleth map showing harvested acres of dry edible beans, excluding chickpeas and limas, as percent of harvested cropland acreage in 2022. There are 5 categories. Darker colors represent higher percentages. The darkest category is 15 percent or greater. Counties with higher values are in North Dakota and Michigan. United States: 0.4 percent.

y22_M128 Acres of Dry Edible Peas Harvested as Percent of Harvested Cropland Acreage: 2022

Choropleth map showing harvested acres of dry edible peas as percent of harvested cropland acreage in 2022. There are 5 categories. Darker colors represent higher percentages. The darkest category is 7 percent or greater. Counties with higher values are in North Dakota and Montana. United States: 0.3 percent.

y22_M129 Acres of Potatoes Harvested as Percent of Harvested Cropland Acreage: 2022

Choropleth map showing harvested acres of potatoes as percent of harvested cropland acreage in 2022. There are 5 categories. Darker colors represent higher percentages. The darkest category is 25 percent or greater. Counties with higher values are in southern Idaho, Colorado, Wisconsin, Michigan, Maine, and Florida. United States: 0.4 percent.

y22_M130 Acres of Sugarbeets for Sugar Harvested as Percent of Harvested Cropland Acreage: 2022

Choropleth map showing harvested acres of sugarbeets for sugar as percent of harvested cropland acreage in 2022. There are 5 categories. Darker colors represent higher percentages. The darkest category is 11 percent or greater. Counties with higher values are in North Dakota, Minnesota, Idaho, Wyoming, and Michigan. United States: 0.4 percent.

y22_M131 Acres of Sugarcane for Sugar or Seed Harvested as Percent of Harvested Cropland Acreage: 2022

Choropleth map showing harvested acres of sugarcane for sugar or seed as percent of harvested cropland acreage in 2022. There are 5 categories. Darker colors represent higher percentages. The darkest category is 65 percent or greater. Counties with higher values are in Louisiana and Florida. United States: 0.3 percent.

y22_M132 Acres of Peanuts for Nuts Harvested as Percent of Harvested Cropland Acreage: 2022

Choropleth map showing harvested acres of peanuts for nuts as percent of harvested cropland acreage in 2022. There are 6 categories. Darker colors represent higher percentages. The darkest category is 35 percent or greater. Counties with higher values are in Southeastern states. United States: 0.5 percent.

y22_M140 Acres of Ryegrass Seed Harvested as Percent of Harvested Cropland Acreage: 2022

Choropleth map showing harvested acres of ryegrass seed as percent of harvested cropland acreage in 2022. There are 4 categories. Darker colors represent higher percentages. The darkest category is 30 percent or greater. Counties with higher values are in Northwestern Oregon. United States: 0.09 percent.

Map Title

y22_M133

Acres of Forage Harvested - Land Used for All Hay and Haylage, Grass Silage, and Greenchop as Percent of Harvested Cropland Acreage: 2022

Choropleth map showing harvested acres of forage - all hay and all haylage, grass silage, and greenchop as percent of harvested cropland acreage in 2022. There are 6 categories. Darker colors represent higher percentages. The darkest category is 90 percent or greater. Counties with higher values are in most states except the Midwest and portions of Eastern Nebraska, Mississippi Delta, and Northern Texas. United States: 18.0 percent.

y22_M134

Acres of All Hay Harvested, Including Alfalfa, Other Tame, Small Grain, and Wild, as Percent of Harvested Cropland Acreage: 2022

Choropleth map showing harvested acres of all hay, including alfalfa, other tame, small grain, and wild hay as percent of harvested cropland in 2022. There are 6 categories. Darker colors indicate a higher percentage. The darkest category is 90 percent or greater. Counties with higher values are in most states except the Midwest and portions of Eastern Nebraska, Mississippi Delta, and Northern Texas. United States: 15.7 percent.

y22_M135

Acres of Alfalfa Hay Harvested as Percent of Harvested Cropland Acreage: 2022

Choropleth map showing harvested acres of alfalfa hay as percent of harvested cropland acreage in 2022. There are 6 categories. Darker colors represent higher percentages. The darkest category is 65 percent or greater. Counties with higher values are distributed equitably across most Western states, while the Eastern U.S. has higher values in the North. United States: 5.6 percent.

y22_M136

Irrigated Alfalfa Hay, Harvested Acres, as Percent of Alfalfa Hay, Harvested Acres: 2022

Choropleth map showing harvested acres of irrigated alfalfa hay as percent of harvested acres of alfalfa hay in 2022. There are 6 categories. Darker colors represent higher percentages. The darkest category is 95 percent or greater. Counties with higher values are distributed equitably across most Western states. United States: 34.4 percent.

y22_M137

Acres of Other Dry Hay Harvested as Percent of Harvested Cropland Acreage: 2022

Choropleth map showing harvested acres of other dry hay as percent of harvested cropland acreage in 2022. There are 6 categories. Darker colors represent higher percentages. The darkest category is 80 percent or greater. Counties with higher values are in the Lower Midwest, South Central, and Central Eastern states. United States: 10.1 percent.

y22_M138

Acres of Haylage or Greenchop from Alfalfa or Alfalfa Mixtures Harvested as Percent of Harvested Cropland Acreage: 2022

Choropleth map showing harvested acres of haylage or greenchop from alfalfa or alfalfa mixtures as percent of harvested cropland acreage in 2022. There are 6 categories. Darker colors represent higher percentages. The darkest category is 20 percent or greater. Counties with higher values are in the Northeast states and Great Lakes states. United States: 1.0 percent.

y22_M139

Acres of All Other Haylage, Grass Silage, and Greenchop Harvested as Percent of Harvested Cropland Acreage: 2022

Choropleth map showing harvested acres of all other haylage, grass silage, and greenchop as percent of harvested cropland acreage in 2022. There are 6 categories. Darker colors represent higher percentages. The darkest category is 30 percent or greater. Counties with higher values are in the Northeast and the Pacific Northwest states. United States: 1.7 percent.

Category: Crops and Plants

Subcategory: Vegetables and Melons Harvested

Map ID

Map Title

y22_M141

Vegetables, Harvested Acres, as Percent of Harvested Cropland Acreage: 2022

Choropleth map showing harvested acres of vegetables as percent of harvested cropland acreage in 2017. There are 5 categories. Darker colors represent higher percentages. The darkest category is 55 percent or greater. Counties with higher values are in the West Coast, Upper Midwest, Great Lakes, and Southeastern states. United States: 1.4 percent.

y22_M142 Irrigated Vegetables, Harvested Acres for Sale, as Percent of Harvested Cropland Acreage: 2022

Choropleth map showing harvested acres of irrigated vegetables for sale as percent of harvested cropland acreage in 2022. There are 5 categories. Darker colors represent higher percentages. The darkest category is 40 percent or greater. Counties with higher values are in the West Coast and Great Lakes states, and Florida. United States: 1.0 percent.

y22_M143 Asparagus, Bearing Age, Acres Harvested for Sale, as Percent of Vegetables, Harvested Acres for Sale: 2022

Choropleth map showing harvested acres of bearing age asparagus for sale as percent of harvested acres of vegetables for sale in 2022. There are 5 categories. Darker colors represent higher percentages. The darkest category is 60 percent or greater. Counties with higher values are in Southwest Minnesota, Northern Nebraska, and Western Michigan. United States: 0.5 percent.

y22_M144 Snap Beans, Acres Harvested for Sale, as Percent of Vegetables, Harvested Acres for Sale: 2022

Choropleth map showing harvested acres of snap beans for sale as percent of harvested acres of vegetables for sale in 2022. There are 5 categories. Darker colors represent higher percentages. The darkest category is 60 percent or greater. Counties with higher values are in the eastern United States with concentrations in the Upper Great Lakes states and Western New York. United States: 4.8 percent.

y22_M145 Broccoli, Acres Harvested for Sale, as Percent of Vegetables, Harvested Acres for Sale: 2022

Choropleth map showing harvested acres of broccoli for sale as percent of harvested acres of vegetables for sale in 2022. There are 5 categories. Darker colors represent higher percentages. The darkest category is 20 percent or greater. Counties with higher values are in Western California. United States: 3.4 percent.

y22_M146 Head Cabbage, Acres Harvested for Sale, as Percent of Vegetables, Harvested Acres for Sale: 2022

Choropleth map showing harvested acres of head cabbage for sale as percent of harvested acres of vegetables for sale in 2022. There are 5 categories. Darker colors represent higher percentages. The darkest category is 50 percent or greater. Counties with higher values are by the Great Lakes and in Eastern Florida. United States: 1.5 percent.

y22_M147 Cantaloupes, Acres Harvested for Sale, as Percent of Vegetables, Harvested Acres for Sale: 2022

Choropleth map showing harvested acres of cantaloupes for sale as percent of harvested acres of vegetables for sale in 2022. There are 5 categories. Darker colors represent higher percentages. The darkest category is 45 percent or greater. Counties with higher values are in the South-Central states. United States: 1.3 percent.

y22_M148 Cucumbers and Pickles, Acres Harvested for Sale, as Percent of Vegetables, Harvested Acres for Sale: 2022

Choropleth map showing harvested acres of cucumbers and pickles for sale as percent of harvested acres of vegetables for sale in 2022. There are 5 categories. Darker colors represent higher percentages. The darkest category is 45 percent or greater. Counties with higher values are in Michigan, Texas, and the Southeast states. United States: 2.5 percent.

y22_M149 All Lettuce, Acres Harvested for Sale, as Percent of Vegetables, Harvested Acres for Sale: 2022

Choropleth map showing harvested acres of all lettuce for sale as percent of harvested acres of vegetables for sale in 2022. There are 5 categories. Darker colors represent higher percentages. The darkest category is 30 percent or greater. Counties with higher values are in Western California, and Southwest Arizona. United States: 8.5 percent.

y22_M150 Dry Onions, Acres Harvested for Sale, as Percent of Vegetables, Harvested Acres for Sale: 2022

Choropleth map showing harvested acres of dry onions for sale as percent of harvested acres of vegetables for sale in 2022. There are 6 categories. Darker colors represent higher percentages. The darkest category is 70 percent or greater. Counties with higher values are in Idaho, Georgia, New York, and Western states. United States: 3.9 percent.

y22_M151 Green Peas, Excluding Southern Peas, Acres Harvested for Sale, as Percent of Vegetables, Harvested Acres for Sale: 2022

Choropleth map showing harvested acres of harvested acres of green peas, excluding Southern peas, for sale as percent of harvested acres of vegetables for sale in 2022. There are 6 categories. Darker colors represent higher percentages. The darkest category is 55 or greater. Counties with higher values are in Central Wisconsin, Southern Minnesota, Central Washington, and Northern Oregon. United States: 3.5 percent.

y22_M152 Sweet Corn, Acres Harvested for Sale, as Percent of Vegetables, Harvested Acres for Sale: 2022
Choropleth map showing harvested acres of sweet corn for sale as percent of harvested acres of vegetables for sale in 2022. There are 6 categories. Darker colors represent higher percentages. The darkest category is 70 percent or greater. Counties with higher values are in Southern Minnesota, Upper Midwest and the Eastern states. United States: 10.9 percent.

y22_M153 Tomatoes in the Open, Acres Harvested for Sale, as Percent of Vegetables, Harvested Acres for Sale: 2022
Choropleth map showing harvested acres of tomatoes in the open for sale as percent of harvested acres of vegetables for sale in 2022. There are 5 categories. Darker colors represent higher percentages. The darkest category is 65 percent or greater. Counties with higher values are in California. United States: 7.5 percent.

y22_M154 Watermelons, Acres Harvested for Sale, as Percent of Vegetables, Harvested Acres for Sale: 2022
Choropleth map showing harvested acres of watermelons for sale as percent of harvested acres of vegetables for sale in 2022. There are 5 categories. Darker colors represent higher percentages. The darkest category is 70 percent or greater. Counties with higher values are in the Southeast states and Texas. United States: 3.3 percent.

Category: Crops and Plants Subcategory: Fruits, Tree Nuts, Berries, Nursery and Greenhouse Crops

Map ID Map Title

y22_M155 Strawberries, Bearing Age Acres, as Percent of Harvested Cropland Acreage: 2022
Choropleth map showing harvested acres of bearing age strawberries for sale as percent of cropland harvested acreage in 2022. There are 4 categories. Darker colors represent higher percentages. The darkest category is 15 percent or greater. Counties with higher values are in Western California and Western Florida. United States: 0.02 percent.

y22_M156 Acres of Land in Orchards as Percent of Cropland Acreage: 2022
Choropleth map showing acres of land in orchards as a percent of cropland acreage in 2022. There are 5 categories. Darker colors represent higher percentages. The darkest category is 45 percent or greater. Counties with higher values are in California, Washington, and Florida. United States: 1.6 percent.

y22_M157 Acres of Irrigated Land in Orchards as Percent of Harvested Cropland Acreage: 2022
Choropleth map showing acres of irrigated land in orchards as a percent of harvested cropland acreage in 2022. There are 5 categories. Darker colors represent higher percentages. The darkest category is 55 percent or greater. Counties with higher values are in Central California, Central Washington, and Central Florida. United States: 1.8 percent.

y22_M158 Total Acres of Apples, as Percent of Land in Orchards: 2022
Choropleth map showing total acres of apples as percent of land in orchards in 2022. There are 6 categories. Darker colors represent higher percentages. The darkest category is 80 percent or greater. Counties with higher values are in Washington, Midwestern and Northeastern states. United States: 6.6 percent.

y22_M159 Total Acres of Avocados, as Percent of Land in Orchards: 2022
Choropleth map showing total acres of avocados as percent of land in orchards in 2022. There are 4 categories. Darker colors represent higher percentages. The darkest category is 30 percent or greater. Counties with higher values are in Southern California and Southern Florida. United States: 0.9 percent.

y22_M160 Total Acres of Sweet Cherries, as Percent of Land in Orchards: 2022
Choropleth map showing total acres of sweet cherries as percent of land in orchards in 2022. There are 5 categories. Darker colors represent higher percentages. The darkest category is 60 percent or greater. Counties with higher values are in Central Washington, Northern Oregon, and Western Michigan. United States: 1.8 percent.

y22_M161 Total Acres of Tart Cherries, as Percent of Land in Orchards: 2022
Choropleth map showing total acres of tart cherries as percent of land in orchards in 2022. There are 5 categories. Darker colors represent higher percentages. The darkest category is 50 percent or greater. Counties with higher values are in Western Michigan. United States: 0.7 percent.

y22_M162 Total Acres of Grapes, as Percent of Land in Orchards: 2022

Choropleth map showing total acres of grapes as percent of land in orchards in 2022. There are 5 categories. Darker colors represent higher percentages. The darkest category is 80 percent or greater. Counties with higher values are in Central California, Southern Washington, and Southern New York. United States: 17.9 percent.

y22_M163 Total Acres of All Peaches, as Percent of Land in Orchards: 2022

Choropleth map showing total acres of all peaches as percent of land in orchards in 2022. There are 5 categories. Darker colors represent higher percentages. The darkest category is 70 percent or greater. Counties with higher values are primarily in the eastern United States. United States: 1.8 percent.

y22_M164 Total Acres of All Pears, as Percent of Land in Orchards: 2022

Choropleth map showing total acres of all pears as percent of land in orchards in 2022. There are 6 categories. Darker colors represent higher percentages. The darkest category is 50 percent or greater. Counties with higher values are in Southwestern Oregon, and Central Washington. United States: 0.8 percent.

y22_M165 Total Acres of Plums and Prunes, as Percent of Land in Orchards: 2022

Choropleth map showing total acres of plums and prunes as percent of land in orchards in 2022. There are 6 categories. Darker colors represent higher percentages. The darkest category is 40 percent or greater. Counties with higher values are in the western United States. United States: 0.9 percent.

y22_M166 Total Acres of Grapefruit, as Percent of Land in Orchards: 2022

Choropleth map showing total acres of grapefruit as percent of land in orchards in 2022. There are 4 categories. Darker colors represent higher percentages. The darkest category is 50 percent or greater. Counties with higher values are in Eastern Florida and Southern Texas. United States: 0.7 percent.

y22_M167 Total Acres of Lemons, as Percent of Land in Orchards: 2022

Choropleth map showing total acres of lemons as percent of land in orchards in 2022. There are 5 categories. Darker colors represent higher percentages. The darkest category is 25 percent or greater. Counties with higher values are in South Central California and Southwestern Arizona. United States: 1.3 percent.

y22_M168 Total Acres of Valencia Oranges, as Percent of Land in Orchards: 2022

Choropleth map showing total acres of Valencia oranges as percent of land in orchards in 2022. There are 5 categories. Darker colors represent higher percentages. The darkest category is 50 percent or greater. Counties with higher values are in South Central Florida. United States: (D) Withheld to avoid disclosing data for individual farms.

y22_M169 Total Acres of Oranges, Other Than Valencia, as Percent of Land in Orchards: 2022

Choropleth map showing total acres of oranges other than Valencia as percent of land in orchards in 2022. There are 6 categories. Darker colors represent higher percentages. The darkest category is 50 percent or greater. Counties with higher values are in South Central Florida and Southern Louisiana. United States: 4.6 percent.

y22_M170 Total Acres of Almonds, as Percent of Land in Orchards: 2022

Choropleth map showing total acres of almonds as percent of land in orchards in 2022. There are 5 categories. Darker colors represent higher percentages. The darkest category is 50 percent or greater. Counties with higher values are in Central California. United States: 26.3 percent.

y22_M171 Total Acres of All Pecans, as Percent of Land in Orchards: 2022

Choropleth map showing total acres of all pecans as percent of land in orchards in 2022. There are 6 categories. Darker colors represent higher percentages. The darkest category is 95 percent or greater. Counties with higher values are in Southern states, New Mexico across to Georgia, Oklahoma and Western Missouri. United States: 9.7 percent.

y22_M172 Total Acres of English Walnuts, as Percent of Land in Orchards: 2022

Choropleth map showing total acres of English walnuts as percent of land in orchards in 2022. There are 6 categories. Darker colors represent higher percentages. The darkest category is 65 percent or greater. Counties with higher values are in Central California and the Ohio River Basin. United States: 6.5 percent.

y22_M173 Number of Farms with Floriculture Crops Grown for Sale as Percent of All Farms: 2022

Choropleth map showing the number of farms with floriculture crops grown for sale as percent of all farms in 2022. There are 5 categories. Darker colors represent higher percentages. The darkest category is 25 percent or greater. Counties with higher values are in Southern California, Western Oregon, Southern Florida, and throughout the Northeast and Great Lakes states. United States: 1.6 percent.

Category: Economics

Subcategory: Farms by Value of Sales

Map ID Map Title

y22_M003 Percent of Farms with Sales of Less Than \$10,000: 2022

Choropleth map showing percent of farms with sales of less than \$10,000 in 2022. There are 5 categories. Darker colors represent higher percentages. The darkest category is 75 percent or more. Counties with higher values are in the Northeast, Mid-Atlantic, Southern, and Northwest states. United States: 54.5 percent.

y22_M004 Percent of Farms with Sales of \$10,000 to \$249,999: 2022

Choropleth map showing percent of farms with sales of \$10,000 to \$249,999 in 2022. There are 5 categories. Darker colors represent higher percentages. The darkest category is 40 or more. Counties with higher values are in the Northeast, Upper Midwest, and Central Plains states. United States: 31.9 percent.

y22_M005 Percent of Farms with Sales of \$250,000 or More: 2022

Choropleth map showing percent of farms with sales of \$250,000 or more in 2022. There are 5 categories. Darker colors represent higher percentages. The darkest category is 25 or greater. Counties with higher values are in the Southern and northern Plains, Midwest, Western, Mississippi Delta, Mid-Atlantic, and Southeast states. United States: 13.6 percent.

Category: Economics

Subcategory: Market Value of Agricultural Products Sold

Map ID Map Title

y22_M006 Average Value of Agricultural Products Sold per Farm: 2022

Choropleth map showing average value of agricultural products sold per farm in 2022. There are 6 categories. Darker colors represent larger values. The darkest category is \$750,000 or more. Counties with higher values are in the Western, Mississippi Delta, Plains, Midwestern, and Mid-Atlantic states. United States average: \$285,762.

y22_M007 Value of Crops Sold as Percent of Total Market Value of Agricultural Products Sold: 2022

Choropleth map showing value of crops sold as percent of total market value of agricultural products sold in 2022. There are 5 categories. Darker colors represent higher percentages. The darkest category is 80 percent or more. Counties with higher values are in the East and West coasts, Midwest, Northern, Mississippi Delta, and Plains states. United States: 51.7 percent.

y22_M008 Average Value of Crops Sold per Acre of Harvested Cropland: 2022

Choropleth map showing average value of crops sold per acre of harvested cropland in 2022. There are 6 categories. Darker colors represent higher percentages. The darkest category is 1,000 dollars or greater. Counties with higher values are in the East and West coasts, Southeast states, and Midwest. United States average: \$931.

y22_M009 Value of Grains, Oilseeds, Dry Beans, and Dry Peas Sold as Percent of Total Market Value of Agricultural Products Sold: 2022

Choropleth map showing value of grains, oilseeds, dry beans, and dry peas sold as percent of total market value of agricultural products sold in 2022. There are 6 categories. Darker colors represent higher percentages. The darkest category is 70 percent or more. Counties with higher values are in the Northwest, Midwest, Northern Plains, Central Plains, and Mississippi Delta states. United States: 31.1 percent.

y22_M010 Value of Cotton and Cottonseed Sold as Percent of Total Market Value of Agricultural Products Sold: 2022

Choropleth map showing value of cotton and cottonseed sold as percent of total market value of agricultural products sold in 2022. There are 5 categories. Darker colors represent higher percentages. The darkest category is 50 percent or greater. Counties with higher values are in the Southern United States from Arizona to Virginia. United States: 1.2 percent.

y22_M011 Value of Tobacco Sold as Percent of Total Market Value of Agricultural Products Sold: 2022

Choropleth map showing value of tobacco sold as percent of total market value of agricultural products sold in 2022. There are 5 categories. Darker colors represent larger percentiles. The darkest category is 25 percent or greater. States with higher percentages are Kentucky, Tennessee, Virginia, North Carolina, South Carolina and Connecticut. United States: 0.2 percent.

y22_M012 Value of Other Crops and Hay Sold as Percent of Total Market Value of Agricultural Products Sold: 2022

Choropleth map showing value of other crops and hay sold as percent of total market value of agricultural products sold in 2022. There are 5 categories. Darker colors represent higher percentages. The darkest category is 30 percent or more. Counties with higher values are in the West, Upper Midwest, and Southeast states. United States: 3.7 percent.

y22_M013 Value of Vegetables, Melons, Potatoes, and Sweet Potatoes Sold as Percent of Total Market Value of Agricultural Products Sold: 2022

Choropleth map showing value of vegetables, melons, potatoes, and sweet potatoes sold as percent of total market value of agricultural products sold in 2022. There are 5 categories. Darker colors represent higher percentages. The darkest category is 25 percent or more. Counties with higher values are in the Northeast, Florida, California, Great Lakes, Southwest, and Northwest states. United States: 5.2 percent.

y22_M014 Value of Fruits, Tree Nuts, and Berries Sold as Percent of Total Market Value of Agricultural Products Sold: 2022

Choropleth map showing value of fruits, tree nuts, and berries sold as percent of total market value of agricultural products sold in 2022. There are 6 categories. Darker colors represent higher percentages. The darkest category is 60 percent or more. Counties with higher values are on the West Coast and in Florida. United States: 6.3 percent.

y22_M015 Value of Nursery, Greenhouse, Floriculture, and Sod Sold as Percent of Total Market Value of Agricultural Products Sold: 2022

Choropleth map showing value of nursery, greenhouse, floriculture, and sod sold as percent of total market value of agricultural products sold in 2022. There are 6 categories. Darker colors represent higher percentages. The darkest category is 30 percent or more. Counties with higher values are located near major cities, especially along the East, South and West coasts, and Great Lakes region. United States: 3.9 percent.

y22_M016 Value of Cultivated Christmas Trees and Short Rotation Woody Crops Sold as Percent of Total Market Value of Agricultural Products Sold: 2022

Choropleth map showing value of cultivated Christmas trees and short rotation woody crops sold as percent of total market value of agricultural products sold in 2022. There are 5 categories. Darker colors represent higher percentages. The darkest category is 30 percent or greater. Counties with higher values are in the Northwest, Northeast, Upper Midwest states, and North Carolina. United States: 0.10 percent.

y22_M017 Value of Livestock, Poultry, and Their Products Sold as Percent of Total Market Value of Agricultural Products Sold: 2022

Choropleth map showing value of livestock, poultry, and their products sold as percent of total market value of agricultural products sold in 2022. There are 6 categories. Darker colors represent higher percentages. The darkest category is 85 percent or more. Counties with higher values are in the West, Plains, Great Lakes, Southeast, Mid-Atlantic, Northeast states, and Alaska. United States: 48.3 percent.

y22_M018 Value of Poultry and Eggs Sold as Percent of Total Market Value of Agricultural Products Sold: 2022

Choropleth map showing value of poultry and eggs sold as percent of total market value of agricultural products sold in 2022. There are 6 categories. Darker colors represent higher percentages. The darkest category is 75 percent or more. Counties with higher values are in the South Central, Southeast, and Mid-Atlantic states. United States: 14.1 percent.

y22_M019 Value of Milk from Cows, Sold as Percent of Total Market Value of Agricultural Products Sold: 2022

Choropleth map showing value of milk from cows, sold as percent of total market value of agricultural products sold in 2022. There are 6 categories. Darker colors represent higher percentages. The darkest category is 50 percent or more. Counties with higher values are in the Northeast, Great Lakes, Southwest, and West Coast states. United States: 9.7 percent.

y22_M020 Value of Cattle and Calves Sold as Percent of Total Market Value of Agricultural Products Sold: 2022
Choropleth map showing value of cattle and calves sold as percent of total market value of agricultural products sold in 2022. There are 6 categories. Darker colors represent higher percentages. The darkest category is 80 percent or more. Counties with higher values are in the Western Plains states, Southern Missouri, and Central Eastern Mountain region. United States: 16.5 percent.

y22_M021 Value of Hogs and Pigs Sold as Percent of Total Market Value of Agricultural Products Sold: 2022
Choropleth map showing value of hogs and pigs sold as percent of total market value of agricultural products sold in 2022. There are 6 categories. Darker colors represent higher percentages. The darkest category is 30 percent or more. Counties with higher values are in Iowa, southern Minnesota and North Carolina. United States: 6.7 percent.

y22_M022 Value of Sheep, Goats, Wool, Mohair, and Milk Sold as Percent of Total Market Value of Agricultural Products Sold: 2022
Choropleth map showing value of sheep, goats, wool, mohair, and milk sold as percent of total market value of agricultural products sold in 2022. There are 5 categories. Darker colors represent higher percentages. The darkest category is 25 percent or greater. Counties with higher values are in Texas, Colorado, Arizona, Nevada, Utah, and Wyoming. United States: 0.2 percent.

y22_M175 Value of Certified or Exempt Organically Produced Commodities Sold, Average per Farm with Organic Sales: 2022
Choropleth map of the value of certified or exempt organically produced commodities sold, average per farm with organic sales in 2022. Darker colors represent larger values. The darkest category is \$2,500,000 or greater. Counties with higher values are in California and the Pacific Northwest states. United States average: \$553,380.

y22_M023 Net Cash Farm Income of Operations: 2022
Choropleth map showing net cash farm income of operations in 2022. There are 6 categories. Darker colors represent larger values. The darkest category is \$250,000,000 or more. Counties with higher values are in the Upper Midwestern and Western states. United States total: \$151,639,741,000.

y22_M024 Net Cash Farm Income of Operation, Average per Farm: 2022
Choropleth map showing net cash farm income of operation, average per farm in 2022. There are 6 categories. Darker colors represent larger values. The darkest category is \$250,000 or more. Counties with higher values are in the Upper Midwestern, East Central, Mississippi Delta, and Western states. United States average: \$79,790.

y22_M025 Net Cash Farm Income of Producers: 2022
Choropleth map showing net cash farm income of producers in 2022. There are 6 categories. Darker colors represent larger values. The darkest category is \$100,000,000 or more. Counties with higher values are in the Upper Midwestern and Western states. United States total: \$113,209,222,000.

y22_M026 Net Cash Farm Income of Producers, Average per Farm: 2022
Choropleth map showing net cash farm income of producers, average per farm in 2022. There are 6 categories. Darker colors represent larger values. The darkest category is \$200,000 or more. Counties with higher values are in the Upper Midwestern, Mississippi Delta, and Western states. United States average: \$59,469.

y22_M027 Average Value per Farm of Agricultural Products Sold Directly to Consumers: 2022
Choropleth map showing average value per farm of agricultural products sold directly to consumers in 2022. There are 6 categories. Darker colors represent larger values. The darkest category is \$50,000 or greater. Counties with higher values are in the Northeast and California. United States average: \$27,981.

y22_M028 Total Received from Government Payments, Average Per Farm: 2022

Choropleth map showing total received from government payments, average per farm in 2022. There are 5 categories. Darker colors represent larger values. The darkest category is \$80,000 or more. Counties with higher values are in the Plains, Mississippi Delta, Pacific, and Northwest states. United States average: \$21,599.

y22_M029 Percent of Farms Receiving Government Payments: 2022

Choropleth map showing percent of farms receiving government payments in 2022. There are 6 categories. Darker colors represent higher percentages. The darkest category is 75 percent or more. Counties with higher values are in the Midwest, the Plains, and the Mississippi Delta states. United States: 25.4 percent.

y22_M030 Payments Received from Conservation Reserve, Wetlands Reserve, Farmable Wetlands and Conservation Reserve Enhancement Programs, Average per Farm: 2022

Choropleth map of payments received from Conservation Reserve, Wetlands Reserve, Farmable Wetlands and Conservation Reserve Enhancement Programs, average per farm in 2022. There are 6 categories. Darker colors represent larger values. The darkest category is \$30,000 or more. Counties with higher values are in the Western states. United States average: \$7,274.

y22_M031 Payments Received from Other Federal Farm Programs, Average per Farm: 2022

Choropleth map showing payments received from other federal farm programs, average per farm in 2022. There are 6 categories. Darker colors represent larger values. The darkest category is \$60,000 or greater. Counties with higher values are in the Western half of the US, the Mississippi Delta, and East coast. United States average: \$27,533.

y22_M032 Total Amount Received from Government Commodity Credit Corporation Loans, Average per Farm: 2022

Choropleth map showing total amount received from government commodity credit corporation loans, average per farm in 2022. There are 6 categories. Darker colors represent larger values. The darkest category is \$200,000 or more. Counties with higher values are in the Mississippi Delta, Southeast, Midwest, Plains, Great Lakes, and Northwest states, and in California. United States average: \$168,567.

y22_M033 Total Income from Farm-Related Sources, Average per Farm: 2022

Choropleth map showing total income from farm-related sources, average per farm in 2022. There are 6 categories. Darker colors represent larger values. The darkest category is \$80,000 or greater. Counties with higher values are in the Western states. United States average: \$31,929.

y22_M034 Average Total Farm Production Expenses per Farm: 2022

Choropleth map showing average total farm production expenses per farm in 2022. There are 6 categories. Darker colors represent larger values. The darkest category is \$500,000 or more. Counties with higher values are in California, Northern Plains, Upper Midwest, along the Mississippi River in Arkansas and Mississippi, and the Southeast US. United States average: \$223,175.

y22_M035 Expenses for Livestock and Poultry Purchased or Leased as Percent of Total Farm Production Expenses: 2022

Choropleth map showing expenses for livestock and poultry purchased or leased as a percent of total farm production expenses in 2022. There are 6 categories. Darker colors represent higher percentages. The darkest category is 35 percent or more. Counties with higher values are in Kansas, Nebraska and Texas. United States: 12.1 percent.

y22_M036 Expenses for Feed Purchased as Percent of Total Farm Production Expenses: 2022

Choropleth map showing expenses for feed purchased as a percent of total farm production expenses in 2022. There are 5 categories. Darker colors represent higher percentages. The darkest category is 50 percent or more. Counties with higher values are in Arkansas and Southeast states. United States: 20.8 percent.

y22_M037 Expenses for Seeds, Plants, Vines, and Trees Purchased as Percent of Total Farm Production Expenses: 2022

Choropleth map showing expenses for seeds, plants, vines, and trees purchased as a percent of total farm production expenses in 2022. There are 6 categories. Darker colors represent higher percentages. The darkest category is 15 percent or more. Counties with higher values are in Arkansas, Illinois, and North Dakota. United States: 6.0 percent.

y22_M038 Expenses for Fertilizer, Lime, and Soil Conditioners Purchased as Percent of Total Farm Production Expenses: 2022

Choropleth map showing expenses for fertilizer, lime and soil conditioners purchased as a percent of total farm production expenses in 2022. There are 6 categories. Darker colors represent higher percentages. The darkest category is 18 percent or more. Counties with higher values are in Arkansas, North Dakota and the Midwest states. United States: 8.5 percent.

y22_M039 Expenses for Chemicals Purchased as Percent of Total Farm Production Expenses: 2022

Choropleth map showing expenses for chemicals purchased as a percent of total farm production expenses in 2022. There are 6 categories. Darker colors represent higher percentages. The darkest category is 15 percent or more. Counties with higher values are in North Dakota, and the Mississippi Delta, and Southeastern states. United States: 5.6 percent.

y22_M040 Expenses for Gasoline, Fuels, and Oils Purchased as Percent of Total Farm Production Expenses: 2022

Choropleth map showing expenses for gasoline, fuels and oils purchased as a percent of total farm production expenses in 2022. There are 6 categories. Darker colors represent higher percentages. The darkest category is 12 percent or more. Counties with higher values are in Arkansas, Kentucky, West Virginia, Louisiana, and Southwestern states. United States: 4.3 percent.

y22_M041 Expenses for Utilities as Percent of Total Farm Production Expenses: 2022

Choropleth map showing expenses for utilities as a percent of total farm production expenses in 2022. Darker colors represent higher percentages. The darkest category is 7 percent or more. Counties with higher values are in California and Nevada. United States: 2.6 percent.

y22_M042 Expenses for Total Labor as Percent of Total Farm Production Expenses: 2022

Choropleth map showing expenses for total labor as a percent of total farm production expenses in 2022. Darker colors represent higher percentages. The darkest category is 35 percent or more. Counties with higher values are on the East and West coasts. United States: 12.2 percent.

y22_M043 Expenses for Hired Farm Labor as Percent of Total Farm Production Expenses: 2022

Choropleth map showing expenses for hired labor as a percent of total farm production expenses in 2022. Darker colors represent higher percentages. The darkest category is 25 percent or greater. Counties with higher values are on the East and West coasts. United States: 9.9 percent.

y22_M044 Expenses for Contract Labor as Percent of Total Farm Production Expenses: 2022

Choropleth map showing expenses for contract labor as a percent of total farm production expenses in 2022. Darker colors represent higher percentages. The darkest category is 10 percent or greater. Counties with higher values are in California and Florida. United States: 2.4 percent.

y22_M045 Expenses for Customwork and Custom Hauling as Percent of Total Farm Production Expenses: 2022

Choropleth map showing expenses for customwork and custom hauling as a percent of total farm production expenses in 2022. Darker colors represent higher percentages. The darkest category is 5 or greater. Counties with higher values are in California and Wisconsin. United States: 2.4 percent.

y22_M046 Expenses for Interest Paid on Debts as Percent of Total Farm Production Expenses: 2022

Choropleth map showing expenses for interest paid on debts as a percent of total farm production expenses in 2022. Darker colors represent higher percentages. The darkest category is 10 percent or more. Counties with higher values are in Kentucky, Mountain, and Southern Plains regions. United States: 3.2 percent.

y22_M047 Expenses for Repairs, Supplies, and Maintenance as Percent of Total Farm Production Expenses: 2022
Choropleth map showing expenses for repairs, supplies, and maintenance as a percent of total farm production expenses in 2022. Darker colors represent higher percentages. The darkest category is 11 percent or greater. Counties with higher values are in West Virginia, Kentucky, the Northeast states, and Mountain region. United States: 6.1 percent.
