Introduction

PURPOSE AND SCOPE

The 2022 American Indian Reservation publication provides data that supplement the 2022 Census of Agriculture, Volume 1, Geographic Area Series publications released by the U.S. Department of Agriculture (USDA), National Agricultural Statistics Service (NASS). This publication presents selected operation and producer data for 72 selected American Indian reservations. This is the fifth report NASS has published that focuses on agricultural activity on American Indian reservations based on individual farm and ranch reports.

HISTORY

NASS received a recommendation from the Secretary of Agriculture's Advisory Committee on Agriculture Statistics to collect more complete reservation-level data on the 2002 census. In response to this recommendation and to honor a commitment to publish improved demographic data on American Indian producers, NASS conducted a 2002 Census of Agriculture pilot project in Montana, North Dakota, and South Dakota. Starting with the 2007 Census of Agriculture, NASS expanded this effort to include reservations throughout the United States.

USES OF CENSUS DATA

The census of agriculture provides a detailed picture of U.S. farms and ranches every five years. It is the leading source of uniform, comprehensive agricultural data for every State and county or county equivalent. Census of agriculture data are routinely used by agriculture organizations, businesses, State departments of agriculture, elected representatives and legislative bodies at all levels of government, public and private sector analysts, the news media, and colleges and universities. Census of agriculture data are frequently used to:

- Show the importance and value of agriculture on the reservations and provide the public and tribal officials with crop and livestock information;
- Provide agricultural news media and agricultural associations benchmark statistics for stories and articles on U.S. agriculture and the foods produced;

- Compare the income and costs of production;
- Provide important data about the demographics and financial well-being of producers;
- Evaluate historical agricultural trends to formulate farm and rural policies and develop programs that help agricultural producers;
- Allocate local and national funds for farm programs, e.g. extension service projects, agricultural research, soil conservation programs, and land-grant colleges and universities;
- Identify the assets needed to support agricultural production such as land, buildings, machinery, and other equipment;
- Create an extensive database of information on uncommon crops and livestock and the value of those commodities for assessing the need to develop policies and programs to support those commodities;
- Provide geographic data on production so agribusinesses will locate near major production areas for efficiencies for both producers and agribusinesses;
- Measure the usage of modern technologies such as conservation practices, organic production, renewable energy systems, internet access, and specialized marketing strategies;
- Develop new and improved methods to increase agricultural production and profitability;
- Plan for operations during drought and emergency outbreaks of diseases or infestations of pests;
- Analyze and report the current state of food, fuel, and fiber production in the United States; and
- Make energy projections and forecast needs for agricultural producers and their communities.

LEGAL AUTHORITY

The 2022 Census of Agriculture is required by law under the "Census of Agriculture Act of 1997," Public Law 105-113 (Title 7, United States Code, Section 2204g). The law directs the Secretary of Agriculture to conduct a census of

agriculture every fifth year.

FARM DEFINITION

The census definition of a farm is any place from which \$1,000 or more of agricultural products were produced and sold, or normally would have been sold, during the census year. The definition has changed nine times since it was established in 1850. The current definition was first used for the 1974 Census of Agriculture and has been used in each subsequent agriculture census. This definition is consistent with the definition used for current USDA surveys.

DATA COMPARABILITY

Most commodity data are comparable between the 2022 and 2017 censuses. Changes were made to the 2022 census that affect the comparability for some data items. Demographic data for the 2022 Census of Agriculture are not fully comparable to 2012 and earlier census data due to terminology and definition changes. Dollar figures are expressed in current dollars and have not been adjusted for inflation or deflation. In general, data for censuses since 1974 are not fully comparable with data for 1969 and earlier censuses due to changes in the farm definition. See 2022 Census of Agriculture, Geographic Area Series, Part 51, Appendix B, General Explanation and Census of Agriculture Report Form (https://www.nass.usda.gov/Publications/AgCensus/2022/Full_Report/Volume_1,_Chapter_1_US/usappxb.pdf) for a detailed discussion of these changes.

REFERENCE PERIOD

Reference periods for the 2022 Census of Agriculture were similar to those used in the 2017 Census of Agriculture. Reference periods in both 2017 and 2022:

- Crop production is measured for the calendar year.
- Livestock and poultry inventories are measured as of December 31 of the census year.
- Crop and livestock sales and production expenses are measured for the calendar year.

TABLES AND APPENDIX

Tables 1 and 2 provide the 2022 Census of Agriculture data for agricultural and demographic items for selected American Indian reservations in the United States. Reservations are selected based on amount of agricultural activity, success of list building, and respondent confidentiality. (See Respondent Confidentiality below.) The reservations are listed in alphabetical order in each table.

In each table, two columns are given for each reservation. The first column represents all reservation farms and ranches on that specific reservation. The second column represents all American Indian or Alaska Native operated farms and ranches on that same reservation. The minimum requirement for inclusion in the second column is at least one producer be an American Indian or Alaskan Native. That producer can be exclusively an American Indian or Alaska Native or can be an American Indian in combination with one or more other races.

Table 1, Farm Characteristics of All Farms on Selected Reservations and of All Farms Operated by American Indians or Alaska Natives on Selected Reservations: 2022, provides aggregated agricultural data for farms and ranches operating on each selected reservation.

Table 2, Producer Characteristics of All Producers on Selected Reservations and of All American Indian or Alaska Native Producers on Selected Reservations: 2022, presents demographic data for all producers (up to four) reported per farm or ranch on the census report forms.

Appendix. Provides definitions and explanations of specific terms used in this publication and copies of the 2022 Census of Agriculture report forms and instruction sheets.

RESPONDENT CONFIDENTIALITY

In keeping with the provisions of Title 7 of the United States Code, no data are published that would disclose information about the operations of an individual farm or ranch. All tabulated data are subjected to an extensive disclosure review prior to publication. Any tabulated item that identifies data reported by a respondent or allows a respondent's data to be accurately estimated or derived, was suppressed and coded with a 'D'. However, the number of farms reporting an item is not considered confidential information and is provided even though other information is withheld.

SPECIAL EFFORTS DIRECTED AT AMERICAN INDIANS AND ALASKA NATIVES

NASS implemented several activities to improve coverage of American Indian and Alaska Native farm producers. These activities included, but were not limited to:

- Obtaining mail lists from organizations likely to contain names and addresses of American Indian and Alaska Native farm and ranch producers;
- Conducting pre-census promotion activities that

targeted American Indian and Alaska Native farm and ranch producers;

- Working with community based organizations to promote the 2022 Census of Agriculture to their members.

SPECIAL STUDIES, SUBJECT SERIES REPORTS, AND CUSTOM TABULATIONS

Reports such as the 2023 Irrigation and Water Management Survey, and the 2023 Census of Aquaculture are part of the census program and provide supplemental information to the 2022 Census of Agriculture in the respective subject area. Results are published on the internet.

Custom-designed tabulations may be developed when data are not published elsewhere. These tabulations are developed to individual user specifications on a cost-reimbursable basis and shared with the public. Quick Stats, NASS's online database that allows data users to build

customized queries, should be investigated before requesting a custom tabulation.

All special studies and custom tabulations are subject to a thorough disclosure review prior to release to prevent the disclosure of any individual respondent data. Requests for custom tabulations can be submitted via the internet from the NASS home page at [https://www.nass.usda.gov/Data_and_Statistics/Special Tabulations/](https://www.nass.usda.gov/Data_and_Statistics/Special_Tabulations/)

ABBREVIATIONS AND SYMBOLS

The following abbreviations and symbols are used throughout the tables:

- Represents zero.
- (D) Withheld to avoid disclosing data for individual farms.
- (Z) Less than half of the unit shown.
- cwt Hundredweight.

“The American Indian is of the soil, whether it be the region of forests, plains, pueblos, or mesas. He fits into the landscape, for the land that fashioned the continent also fashioned the man for his surroundings. He once grew as naturally as the wild sunflowers; he belongs just as the buffalo belonged . . .”

- - Luther Standing Bear, Oglala Sioux Chief, 1905-1939

¹ Data are for farms and ranches reporting at least some agricultural production on reservations during 2022.

² At least one of the reported producers (out of a maximum of four) self-identified as American Indian or Alaska Native either exclusively or in combination with other races.

³ Values of zero are not included.

⁴ Landlord production expenses are included within total farm production expenses.

Census Methodology, Definitions and Explanations, and Report Form and Instruction Sheet

STATISTICAL METHODOLOGY

The census of agriculture statistical methodology can be found in the 2022 Census of Agriculture, Volume 1, Geographic Area Series, Part 51. This document can be found at:

https://www.nass.usda.gov/Publications/AgCensus/2022/Full_Report/Volume_1,_Chapter_1_US/usappxa.pdf

DATA COLLECTION OUTREACH AND PROMOTIONAL EFFORTS

NASS planned and executed a multi-phase strategic communications campaign for the 2022 Census of Agriculture, to increase the level of awareness and response among American Indian and Alaskan Native producers.

The communications campaign focused on these primary areas: partnership building, local-level outreach, public relations, media relations, paid media, social media and some paid advertising. Some external support was provided by a private communications agency (i.e. primarily assisted with design and paid advertising). The unifying force behind the 2022 communications campaign was the theme “Your Voice. Your Future. Your Opportunity.” This was accompanied by supporting messages and artwork that created a consistent look and feel for all census communications.

Partnership and Local-Level Outreach

At the national level, NASS officials met with leaders from agricultural organizations, State Departments of Agriculture, USDA Office of Tribal Relations, and other agencies to successfully secure their support in promoting the census among their constituencies. Stakeholders partnered with NASS to promote the 2022 Census of Agriculture through publications (e.g. newsletters), special mailings, speeches, social media, websites, and other communications. In addition, through grassroots-level outreach and efforts, NASS partnered with a number of community-based organizations to reach every farmer and rancher. National-level outreach was encouraged and mirrored at the regional, State, and local levels. Among the highlights of these partnership efforts was the production of multiple radio public service announcements in Navajo

and English.

Public Relations

In the public relations arena, NASS worked with internal and external, national, regional, and local stakeholders to equip them with communications tools and resources to deliver the census communications message to their audiences. NASS utilized its Intranet, the Partner Tools section on the census webpage, and a regularly scheduled, newsletter-type email update to deliver materials to staff across its 12 regions, other USDA agencies and external stakeholders. The materials included but were not limited to: customizable news releases, public service announcement scripts, and a PowerPoint template; Secretary of Agriculture video public service announcements, and drop-in advertisements; informational, instructional, and testimonial videos; website buttons and banners; brochures in multiple languages; social media posts; flyers; posters; FAQ sheets, talking points, and more. In addition, at the national level, NASS issued six news releases during data collection (three more were produced before data collection to inform and prepare producers) citing department and agency spokespeople, published half a dozen timely and relevant pieces to the USDA blog highlighting the census, and conducted three social media campaigns. These public relations efforts at the national and local levels helped ensure that NASS’ message about the census was continually in the media, including print and online publications, a variety of social media, video from FSA and NASS Administrators, radio, and some television programs. Media outlets included both those specializing in agriculture and more general outlets.

Paid Media

With a very limited budget, NASS was able to apply a small portion of funds toward paid advertising. For the 2022 Census of Agriculture, NASS strategically advertised with in regional print publications, online, tribal radio, and with national agriculture news services to bolster reach both in general and within geographically specific, previously under-represented populations and lower response areas.

DATA COLLECTION

Two types of report forms were used during data collection. Most producers received the standard census report form (22-A100). Some producers in Arizona, New Mexico, and Utah thought to operate on an American Indian reservation received the American Indian report form (22-A300). This form was designed to collect data for the unique nature of agriculture on reservations in these three States.

Data collection for the producers that received the American Indian report form was accomplished primarily by field enumeration. Most producers were first mailed a report form. NASS monitored completion rates in counties with a high density of reservation land to target data collection follow-up activities. Additional data collection procedures were implemented to ensure maximum response from farmers and ranchers who operated on reservations. NASS hired enumerators who were familiar with tribal agriculture, reservation farm or ranch producers, and who could help bridge any language or cultural barriers. Most enumerators were tribal members. Special training was conducted for enumerators who would meet with reservation producers. Nonrespondents were followed up with face-to-face interviews by field enumerators. Enumerators made themselves available to producers at established locations to answer any questions and assist them in completing their census report form.

To maximize coverage, a concerted effort was made to get individual reports from producers operating on American Indian reservations. If this was not possible within some reservations, a single, reservation-level census report was used to account for all agricultural activity on the reservation, including the number of producers.

DATA RECORDS

Data from producers who completed Section 35 of the standard census form or Section 1 of the American Indian form are included in this publication. The report forms allowed farm and ranch producers to self-report agricultural activity on American Indian reservations and identified farms or ranches that operated land on reservations. The intent was to measure total agriculture on farms and ranches that had at least some agricultural production on reservations during 2022. Specifically, this section requested:

- the number of acres used for livestock or cropland during 2022 on the reservation,
- the number of cropland acres harvested during 2022 on the reservation, and
- the percent of the operation's livestock on the

reservation on December 31, 2022.

The data are summarized in Tables 1 and 2 for those census reports where the farm or ranch producer self-reported that at least a portion of the operation was located on a reservation during 2022. Tables 1 and 2 contain two data columns for each reservation. The first data column includes data for all farms and ranches operating on the reservation. The second data column includes data for farms where at least one of the reported producers (out of a maximum of four) were self-identified as American Indian or Alaska Native either as a single race or in combination with other races.

The data represent counts and totals for farms and ranches that had any agricultural production on reservations during 2022. This includes ranches that only grazed livestock on reservation land on an Animal Unit Month (AUM) basis but did not actually operate any land. NASS did not ask for specific crop acreages or livestock inventories on the reservation land. The total harvested cropland acreage and the percent of livestock inventory on reservation land was collected. Consequently, the total crop acreage or livestock inventory may include some acreage or livestock that were located outside of the reservation boundaries. Data are presented at the beginning of Table 1 that describe the distribution of reservation farms by percent of land on a reservation, by percent of harvested cropland on a reservation, and by percent of livestock on a reservation. Note that these counts do not sum to the total number of farms on the reservation since all farms do not necessarily operate land, have harvested cropland, or have livestock on the reservation. These distribution counts in Table 1 cannot be used to directly calculate any crop or livestock data items but they do provide information regarding the degree to which the crop and livestock data apply to reservation land.

DATA CHANGES

Following are descriptions of the report form changes and their effect on the publication tables in this report.

Added items include:

- Use of precision agriculture practices
- Producers' involvement in marketing decisions
- Cable, DSL, fiber optic were combined into broadband (high speed) internet.

DEFINITIONS AND EXPLANATIONS

The following definitions and explanations provide a detailed description of specific terms and phrases used in this publication. Items in the publication tables which carry

the note “See text” are also explained.

Acres and quantity harvested. Crops were reported in whole acres, except for the following crops that were reported in tenths of acres: traditional corn, vegetables including potatoes and sweet potatoes, fruit and nut crops including land in orchards, and berries. Totals for crops reported in tenths of acres were rounded to whole acres at the aggregate level during the tabulation process.

If two or more crops were harvested from the same land during the year (double cropping), the acres were counted for each crop. Therefore, the total acres of all crops harvested could exceed the acres of cropland harvested. No double cropping is allowed for hay or fruit and nut crops.

When more than one cutting of hay was taken from the same acres, the acres were counted only once. If there were multiple cuttings of one type of hay production, e.g. two cuttings of alfalfa for dry hay, acreage was reported once, but the quantity harvested includes all cuttings. Acreage cut and tons harvested for both dry hay and haylage, silage, or greenchop were reported for each crop. For interplanted crops or “skip-row” crops, acres were reported according to the portion of the field occupied, whether by a crop or whether it was idle land. If a crop was interplanted in an orchard or vineyard and harvested, then the entire orchard or vineyard acreage was reported under the appropriate fruit crop and the interplanted estimated crop acreage was reported under the appropriate crop.

If a crop was planted but not harvested, the acres were not reported as harvested. These acres were reported in the Land Use section on the report form under the appropriate items – cropland on which all crops failed or were abandoned, cropland in summer fallow, cropland idle or used for cover crops or soil improvement but not harvested and not pastured or grazed, or other pasture and grazing land that could have been used for crops without additional improvements. This does not include fruit and nut orchards, vineyards, berries, acres in production for cultivated Christmas trees, and acres in production for short rotation woody crops that were not harvested. Acreage in these commodities were included in cropland harvested regardless of whether the crop was harvested. Abandoned orchards were reported as cropland idle, not as harvested cropland, and the individual abandoned orchard crop acres were not reported.

Crops that were grazed by livestock were reported as “Other pasture and grazing land that could have been used for crops without additional improvements.” Crop residue left in fields after the 2022 harvest and later grazed by livestock were reported as cropland harvested and not as other pasture or grazing land that could have been used for

crops.

Quantity harvested was not obtained for crops such as fruits, nuts, berries, vegetables, melons, nursery crops, and greenhouse crops.

American Indian and Alaska Native farm producers. Data are published for a maximum of four producers reported in the Personal Characteristics section of the report form. The individual producers were included on the census mail list for most reservations. Those reservations that did not include all the individual producers on the census mail list were identified and the data for the entire reservation, including the data for the producers that would have met the definition of a farm, were collected on one report form.

Broadband. This item is the number of farms that reported using DSL, cable, or fiber connections to the internet.

Cellular data plan. Mobile internet service for a cell phone or other device. This includes counts of farm operations that reported accessing the internet from a mobile device, such as cell phone or tablet. In 2017 this item was labeled mobile broadband data plan for a computer or a cell phone. This is a wording change only; data are comparable.

Corn, traditional. Traditional corn is an open-pollinated (non-hybrid), non-GMO cultivar of *Zea mays* that was indigenously developed and consists of many heritage varieties of sizes, color and drought tolerance. Traditional corn grown on southwest reservations has been passed from generation to generation through seed saving by American Indian and Hispanic communities. Traditional corn is culturally significant.

Cropland, harvested. See Harvested cropland.

Cropland, total. See Total cropland.

Deeded land. Land individually or tribally owned that is subject to real estate and/or property taxes.

Dry edible beans, excluding chickpeas and limas. Dry edible beans do not include chickpeas, dry edible peas, dry lima beans, or dry southern (black eyed/cowpeas).

Expenses. See Total farm production expenses.

Farms by legal status. All farms were classified by legal status in the 2022 census. This section collects

information for federal tax purposes to determine an operation's legal status. The classifications used were:

1. Family or individual (sole proprietorship), excluding partnership and corporation.
2. Partnership, including family partnership.
3. Corporation, including family corporations.
4. Other - estate or trust, prison farm, grazing association, American Indian reservation, etc.

Farms by percent of cropland harvested on reservation. The classification of total amount of cropland harvested on reservations divided by total cropland acres on farm.

Farms by percent of land on reservation. The classification of farms by reservation acres on farm divided by total land in farms.

Farms by percent of livestock on reservation. The classification of farms by percent of livestock on the reservation on December 31, 2022.

Farms by size. All farms were classified into size groups according to the total land area in the farm. The land area of a farm is an operating unit concept and includes land owned and operated as well as land rented from others. Land rented to or assigned to a tenant was considered part of the tenant's farm and not part of the owner's.

Farms by tenure of producer. All farms were classified by tenure of producers. The classifications used were:

- Full owners operated only land they owned.
- Part owners operated land they owned and also land they rented from others.
- Tenants operated only land they rented from others or worked on shares for others. Operations are classified as tenant farms when the only land they operate is permit land on the reservations.

Farms with hired managers are classified according to the land ownership characteristics reported. For example, a corporation owns all the land used on the farm and hires a manager to run the farm. The hired manager is considered the farm producer, and the farm is classified with a tenure type of "full owner" even though the hired manager owns none of the land he/she operates.

Farms by value of sales. See Market value of products sold.

Farms with sales of less than \$1,000. This category includes farms with sales of less than \$1,000 but having the potential for sales of \$1,000 or more. Some of these farms had no sales in the census year. It provides information on all report form items for farms that normally would be expected to sell agricultural products of \$1,000 or more.

Fertilizer. See Total farm production expenses; Fertilizer, lime, and soil conditioners.

Food marketing practices. This section consists of sales of edible agricultural products that are both produced and sold by the operation directly to consumers (farmers markets, on farm stores or farm stands, roadside stands or stores, u-pick, CSA, online marketplaces, etc.) or retail markets, institutions, or food hubs for local or regionally branding. Retail and institutional establishments include supermarkets, supercenters, restaurants, caterers, independently owned grocery stores, food cooperatives, K-12 schools, colleges or universities, hospitals, workplace cafeterias, prisons, foodbanks, etc.

Forage - land used for all hay and all haylage, grass silage, and greenchop. Data shown represent the area harvested with each acre counted only once if dry hay, haylage, grass silage, or greenchop were cut from the same acreage or if there were multiple cuttings of dry hay, haylage, grass silage, or greenchop. Data exclude corn silage and sorghum silage. Quantity produced is the sum of the quantity harvested of all hay including alfalfa, other dry hay, and all haylage, grass silage and greenchop after converting the all haylage, grass silage, and greenchop quantity harvested to a dry equivalent basis (13 percent moisture). The green tons of all haylage, grass silage, and greenchop harvested were multiplied by a factor of 0.4943 to convert to a dry equivalent. This conversion factor is based on the assumption that one ton of dry hay is 0.87 ton of dry matter, one ton of haylage or grass silage is 0.45 ton dry matter, and one ton of greenchop is 0.25 ton dry matter. The all haylage, grass silage, and greenchop quantity harvested is assumed to be comprised of 90 percent haylage and grass silage and 10 percent greenchop. Therefore, the conversion factor used to adjust all haylage, grass silage, and greenchop quantity harvested to a dry equivalent basis = $[(0.45*0.9)+(0.25*0.1)]/0.87 = 0.4943$.

Harvested cropland. This category includes land from which crops were harvested and hay was cut, land used to grow short rotation woody crops, Christmas trees, and land in orchards, groves, vineyards, berries, nurseries, and greenhouses. Land from which two or more crops were harvested was counted only once. Land in tapped maple trees was included in woodland not pastured. The 2022 census definition for harvested cropland is the same as the

2017 definition.

Internet access. This item is the number of farms that reported using personal computers, laptops, or mobile devices (e.g., cell phones or tablets) to access the internet. This can be done using services such as broadband, dial-up, cellular, satellite, or other methods.

Inventory - livestock and poultry. Data were collected for livestock and poultry inventories as of December 31, 2022. These data include livestock and poultry grown or fed on the operation for others on a custom or contract basis, on land used rent free, and on public, private, or industrial property under a grazing permit.

Involvement in decisionmaking. Questions were asked about each producer's involvement in farm-related decisions, including day-to-day decisions, land use and/or crop decisions, livestock decisions, record keeping and/or financial management, and estate planning or succession planning. Marketing decisions were added in 2022.

Irrigated land. This category includes all land watered by any artificial or controlled means, such as sprinklers, flooding, furrows or ditches, sub-irrigation, and spreader dikes. Included are supplemental, partial, and preplant irrigation. Each acre was counted only once regardless of the number of times it was irrigated or harvested. If an operation reported less than one acre irrigated, the irrigated land for the operation was rounded to one acre. Livestock lagoon wastewater distributed by sprinkler or flood systems was also included.

Land in berries. Data are for total land in berries, including land on which all berry crops failed. Respondents reported bearing age acres and nonbearing acres by individual berry crops.

Land in farms. The acreage designated as "land in farms" consists primarily of agricultural land used for crops, pasture, or grazing. It also includes woodland and wasteland not actually under cultivation or used for pasture or grazing, provided it was part of the farm operator's total operation. Large acreages of woodland or wasteland held for nonagricultural purposes were deleted from individual reports during the edit process. Land in farms includes CRP, WRP, FWP, and CREP acres.

Land in farms is an operating unit concept and includes land owned and operated as well as land rented from others. Land used rent free was reported as land rented from others. All grazing land, except land used under government permits on a per-head basis, was included as "land in farms" provided it was part of a farm or ranch. Land under the exclusive use of a grazing association was

reported by the grazing association and included as land in farms. All land in American Indian reservations used for growing crops, grazing livestock, or with the potential of grazing livestock was included as land in farms. Land in reservations not reported by reservation, individual American Indians, or non-Native Americans was reported in the name of the cooperative group that used the land. In some instances, an entire American Indian reservation was reported as one farm.

Land in orchards. This category includes land in bearing age and nonbearing age fruit trees, citrus or other groves, vineyards, and nut trees of all ages, including land on which all fruit crops failed. Respondents also reported bearing age acres and nonbearing age acres by individual fruit and nut crops.

Land in vegetables. Data are for the total vegetable and melon crops harvested. The acres were reported only once, even though two or more harvests of a vegetable or more than one vegetable were harvested from the same acres.

Land use practices. Includes all agricultural land used for the production of agricultural commodities.

Drained by tile. Tile drainage is a practice that removes excess water from the soils subsurface.

Artificially drained by ditches. A field ditch installed for surface drainage for collecting excess surface or subsurface water in a field.

Conservation easement. A conservation easement is a legal agreement voluntarily entered into by a property owner and a qualified conservation organization such as a land trust or government agency. This category excludes land in CRP (Conservation Reserve Program) acres.

No-till practices used. Using no-till or minimum till is a practice used for weed control and helps reduce weed seed germination by not disturbing the soil.

Conservation or reduced tillage. Conserves the soil by reducing erosion and decreasing water pollution. Conservation tillage leaves 30 percent or more of the soil surface covered by crop residue after planting. Reduced tillage leaves between 15 percent and up to 30 percent of the soil surface covered. In 2017, this category was labeled reduced (conservation tillage). This is a wording change only; data are comparable.

Intensive or conventional tillage. Refers to tillage operations that use standard practices which leaves less than 15 percent of the soil surface covered by crop residue. Intensive tillage often involves multiple operations with

implements such as moldboard, disk, or chisel plow. In 2017, this category was labeled as intensive (conventional tillage). This is a wording change only; the data are comparable.

Cover crop. A crop planted primarily to manage soil fertility, soil quality, water, weeds, pests, diseases, or wildlife. This item does not include CRP acres.

Layers inventory. This category includes table-egg type layers, hatching layers for meat-types, hatching layers for table egg types, and reported bantams.

Legal status for tax purposes. See Farms by legal status.

Livestock and poultry purchased or leased. See Total farm production expenses; *Livestock and poultry purchased or leased.*

Market value of agricultural products sold. This category represents the gross market value before taxes and production expenses of all agricultural products sold or removed from the place in 2022, regardless of who received the payment. It is equivalent to total sales and it includes sales by the producers as well as the value of any shares received by partners, landlords, contractors, or others associated with the operation. It includes value of organic sales, direct sales and the value of commodities placed in the Commodity Credit Corporation (CCC) loan program. Market value of agricultural products sold does not include payments received for participation in other Federal farm programs. It does not include income from farm related sources such as customwork and other agricultural services, or income from nonfarm sources.

The value of crops sold in 2022 does not necessarily represent the sales from crops harvested in 2022. Data may include sales from crops produced in earlier years and may exclude some crops produced in 2022 but held in storage and not sold. For commodities such as sugarbeets and wool sold through a co-op that made payments in several installments, respondents were requested to report the total value received in 2022.

The value of agricultural products sold was requested of all producers. If the producers failed to report this information, estimates were made based on the amount of crops harvested, livestock or poultry inventory, or number sold. Caution should be used when comparing sales in the 2022 census with sales reported in earlier censuses. Sales figures are expressed in current dollars and have not been adjusted for inflation or deflation. See Farms with sales of less than \$1,000.

Military service. A producer with military service is a

person who currently or previously served on active duty in the U.S. Armed Forces. For publication purposes, two categories are included in the personal characteristics tables 1) Never served or only on active duty for training in the Reserves or National Guard, 2) Active duty now or in the past. The categories in 2017 were: Never served and Served. This is a wording change only; data are comparable.

Number of persons living in producers' households. This is the count of people living in the households of the producers on the farm. If producers on the farm are living in the same household, the count is not duplicated for each producer.

Occupation. See Producer characteristics.

Producer. The term producer designates a person who is involved in making decisions for the farm operation. Decisions may include decisions about such things as planting, harvesting, livestock management, and marketing. The producer may be the owner, a member of the owner's household, a hired manager, a tenant, a renter, or a sharecropper. If a person rents land to others or has land worked on shares by others, he/she is considered the producer only of the land which is retained for his/her own operation. The census collected demographic information for up to four producers per farm.

Producer characteristics. Producers (up to four producers per farm) were asked to report primary occupation, sex, age, race, if they were of Hispanic, Latino or Spanish origin, place of residence, if retired from farming, number of days worked off farm, year in which his/her operation of the farm began, year began operating any farm, if they were a hired manager, if they had military service, and the number of persons living in the their households.

Producers, number. Demographic and other information were collected for up to four producers per farm. This may be fewer than the total number of producers on some farms.

Production expenses. See Total farm production expenses.

Reservation acres on farm. Total amount of land in farms on the reservation used for crops and livestock.

Sales, total. See Market value of agricultural products sold.

Sheep and lambs inventory. Data are for sheep and lambs of all ages owned regardless of location.

Size of farm. See Farms by size.

Squash, all (including zucchini). All squash is a summation of summer squash, and winter squash. Total acres, acres for fresh market, and acres for processing were collected by category. In 2017, the squash types were collected as separate items.

Tenure. See Farms by tenure of producer.

Total cropland. This category includes cropland harvested, other pasture and grazing land that could have been used for crops without additional improvements, cropland on which all crops failed or were abandoned, cropland in cultivated summer fallow, and cropland idle or used for cover crops or soil improvement but not harvested and not pastured or grazed.

Total farm production expenses. Includes the production expenses provided by the producers, partners, landlords (excluding property taxes), and production contractors for the farm business in 2022. Tenant farmers reported expenses paid by landlords for the agricultural production on the operation, as well as their expenses. Farm or ranch producers who rented part of their land to others reported only the expenses for the land they actually used themselves and not expenses for land rented to others. The 2022 total farm production expenditure includes all farm-related expenses such as customwork, fuel costs, cost of cutting timber, services provided to hunters, cooperative membership fees, etc. However, if the income from these farm-related categories was not considered a part of the operation (i.e., if the income was regarded as derived from a separate business), then the associated expenses were not included. The contractor's portion of expenses was solely based on computer generated estimates for 2022.

This item excludes expenses relating to non-farm activities such as trading and speculation in the commodities market or livestock trading activities. Explanations of selected production expenses are listed below.

Chemicals. These 2022 expenses include insecticides, herbicides, fungicides, and other pesticides, including costs of custom application. Data exclude commercial fertilizer purchased.

Feed purchased. These expenses include the cost of all feed purchased for livestock and poultry including grain, hay, silage, mixed feeds, concentrates, etc. during 2022.

Fertilizer, lime, and soil conditioners. These 2022 expenses include fertilizer, lime, rock phosphate, and gypsum and the costs of custom application.

Gasolines, fuels, and oils. These expenses include the cost of all gasoline, diesel, natural gas, LP gas, motor oil, and grease products for the farm during 2022. Expenses exclude fuel for personal use of automobiles by the family and others, fuel used for cooking and heating the farmhouse, and any other use outside of farmwork on the operation.

Hired farm labor. These 2022 expenses include the total amount paid for farm or ranch labor including regular workers, part-time workers, and members of the producer's family if they received payments for labor. Expenses include Social Security taxes, State taxes, unemployment tax, payment for sick leave or vacation pay, workman's compensation, insurance premiums, and pension plans.

Interest paid on debts. These expenses include interest and finance charges paid in 2022 for debts secured by real estate and on debt not secured by real estate. Interest expenses excluded from this category are non-farm interest expenses and interest expenses originating from machinery and equipment used for a separate customwork business or for other operations. Interest expense for the producer's dwelling, where the amount is separate from interest on farm land and buildings on the operation, is excluded. Interest paid on debts was reported in one of two categories:

1. *Secured by real estate.* These data include all interest expenses paid in 2022 on debts secured by real estate for the farm.

2. *Not secured by real estate.* These data include all interest expenses paid in 2022 on debts secured by machinery, tractors, trucks, other equipment, livestock, poultry, breeding stock, money borrowed for use as working capital, and interest paid on CCC loans for the farm.

Livestock and poultry purchased or leased. These data include breeding livestock purchased or leased and other livestock and poultry purchased or leased.

Total sales. See Market value of agricultural products sold.

Use of Precision Agriculture. This is a new item for 2022. The use of precision agricultural practices is defined as the use of practices that utilize technology to improve agricultural productivity or efficiency by connecting the practice to a digital environment for crop or livestock production. Several examples of precision agriculture practices are the use of global positioning (GPS) guidance systems, GPS yield monitoring and soil mapping, variable rate input applications, use of drones for scouting fields or

monitoring livestock, electronic tagging, precision feeding, and robotic milking. Precision agriculture practices are not limited to these examples.

Value of sales. See Market value of agricultural products sold.

Wheat for grain. Data were reported by type of wheat -

Durum, winter, and other.

Young producers. A young producer is defined as a producer 34 years of age or younger. This is a definition change from 2017. Young producers in 2017 included producers 35 years of age or younger. The data are not comparable.

INSTRUCTION SHEET UNITED STATES 2022 CENSUS OF AGRICULTURE Your report is due February 6, 2023

Who Should Report?

A reply is required from **EVERYONE** who receives a report form, including persons who operated a farm, ranch, or other agricultural farm or ranch in 2022, anyone who has any agricultural activity, as well as those who were not involved in agriculture. You may complete your report form online. Go to www.agcounts.usda.gov and enter your unique 12-digit survey code from the Census mailing label. More Census information is on the Internet at www.agcensus.usda.gov.

If you do not complete the form online or return your report form by mail, you will continue to receive contacts from us.

It is important to include all federal trust lands that you consider part of your farm or ranch.

If you were a landlord only and rented out all your land, complete the front page, Section 1, and Section 26 on the back page of the enclosed report form and return it in the preaddressed envelope. If you were a landlord but still operated other land yourself, you should complete the entire report form for that land which you operated.

If you had no land, no livestock, and no agricultural farm or ranches, return the report form with a note indicating your status on the front of the form below the address label.

Partial Year Farm or Ranch - If you stopped farming, ranching, or producing agricultural products during 2022, complete the report form for the portion of the year that you did farm. Write "Stopped farming during 2022" and the date you stopped below the address area. Mail the completed report form in the return envelope. If the person whose name is on the label was deceased during 2022, complete the form for the portion of the year that they farmed, and write a note.

Involved in More Than One Farm or Ranch - If you made decisions for more than one farm or ranch, you may have received a report form for each farm or ranch. Provide information for each farm or ranch on a separate form. To obtain additional report forms, or if you have questions, please call the toll-free help line at 1-888-424-7828.

Partnership Farm or ranch - Complete only ONE form for the entire partnership's agricultural farm or ranch and include the entire farm or ranch on that one form. If you made day-to-day decisions for another farm or ranch, complete a report form for each separate farm or ranch. We have listed all known partners below the address area to assist in defining the farm or ranch. Make any necessary corrections to these names.

If you owned farm or ranch land in 2022 that was idle and NOT rented out, you should complete and return the report form. If all the cropland was enrolled in conservation programs like CRP, complete the form and include these acres.

Specialty Commodities - Traditional or Indian corn, horses, bees, elk, emus, mink, fish, nursery, hemp, etc., are an important part of the agriculture industry. Report for all commodities, regardless of the amount of production or sales you had in 2022.

Land in Federal conservation programs in 2022 - If you had land in the Conservation Reserve Program (CRP), Wetlands Reserve Program (WRP), Farmable Wetlands Program (FWP), or Conservation Reserve Enhancement Program (CREP) and you made the decisions on the acres, include the conservation land on the report form in Sections 1, 2, and 18.

Received More Than One Report Form for the Same Farm or ranch - If you received more than one report form for the same farm or ranch, complete only ONE form per farm or ranch. Write "Duplicate" below the address area of each extra form. Return all forms in the same return envelope with your completed form so that we can correct our records.

Entering Your Responses - Use BLUE or BLACK INK only.

Enter your response in the unit requested, i.e., dollars, bushels, tons, etc. When reporting dollars, report in whole dollars only. Convert fractions to decimals. Please print clearly and keep numbers and letters within the white boxes. Mark all applicable Yes/No and None boxes with an "X".

SECTION 1 - ACREAGE IN 2022

Your answers in this section will determine the land (**Acres in "THIS FARM OR RANCH"**) referred to throughout the report form. Include all land associated with your farm or ranch during 2022, whether in production or not. Include all land under permits, all land you owned or rented, during 2022, even if part of the year. Include your home site but exclude other residential or commercial land. Report land in whole acres.

Item 1 (Box A) - Report all land under a PERMIT on federal trust lands or tribal lands on an American Indian Reservation. Include grazing permits and land use permits, home site leases and other permit arrangements.

Item 2 (Box B) - Report all land owned in 2022 whether held under deed, purchase contract or mortgage, homestead law, or as heir/heirress or trustee of an undivided estate. Include all land owned by you and/or your spouse, or by the partnership, corporation, or organization named on the front of the form.

Item 3 (Box C) - Report all land rented or leased by you or your farm or ranch. Include water area leased for aquaculture production. Exclude land used under private, Government grazing permits, or on a fee per head or animal unit month (AUM) basis (Taylor Grazing, Section 3 Bureau of Land Management (BLM) and USDA Forest Service land). BLM Section 15 land leased by your farm or ranch with a specified acreage tract should be included here even though your fees to BLM are paid on an AUM basis.

Item 4 (Box D) - Include all land rented out for any purpose if it was part of the acreage reported in Items 2 and 3. Your tenant(s) will receive a form to report production for the land they rent. Do not report land placed in conservation programs as acres rented to others. Do not report land used by others on a fee per head or animal unit month (AUM) basis.

Item 4a - Report all land owned by the farm or ranch and rented or leased to others.

Item 5 (Box E) - This is all land you operated at any time in 2022. Land use in Section 2 should be reported for these acres.

Item 6 Total acres equals zero (0) - After completing Section 1, if the acres in Item 5, BOX E equal zero and you did not raise or own any livestock, aquaculture, or poultry in 2022, write a description of land use in the space by question 6. Complete Section 26 and mail the report form in the return envelope.

Item 9 - 12

Complete these items if any of your cropland or livestock was on an American Indian Reservation, Pueblo, or service area in 2022. Include trust acres used, as well as deeded land or land leased from others that was on the Reservation.

SECTION 2 - LAND USE IN 2022

The total acres from Items 1 - 4 entered in Item 5, BOX F should equal the total acres in Section 1, Item 5, BOX E. These acres represent "this farm or ranch" for this census report. **If these two numbers are not the same, please GO BACK and CORRECT your figures.** Do not report any crops grown on land rented or leased to others or worked by others on shares during 2022.

Land used for more than one purpose - Do not report the same acreage in more than one of the listed categories. If part or all of your land was used for more than one listed purpose in 2022, report that land only in the first purpose listed. For example, if you planted and harvested a grain crop and grazed the crop residue in the fall, report the land in Item 1a, farm plots. Do not report those acres again in Item 2c pasture or grazing land.

CRP/WRP and other conservation programs - Report these acres in the items in this section that best describe them. For example, CRP land may be reported in cropland harvested, cropland idle, or woodland not pastured depending on its use.

Item 1a - Land maintained for orchards or vineyards is included even if the crop failed or the trees or vines are not of bearing age. Abandoned acres of orchards or vineyards which are not

SECTION 10 - SHEEP AND GOATS

Report goats based on utilization regardless of breed. Report pounds of wool shorn and mohair clipped in 2022 only.

SECTIONS 11, 12, AND 14 - HOGS AND PIGS, CATTLE AND CALVES, AND CHICKENS AND TURKEYS

Include all animals on this farm or ranch on December 31, 2022 owned by you, raised by you under contract, or kept by you for others. Include animals owned by you on unfenced lands, National Forest Land, Indian Reservation Land, cooperative grazing association land, or rangeland administered by the Bureau of Land Management on a per head, animal unit month (AUM), or lease basis. Animals in transit on December 31, 2022, should be reported by the person who had control of the animals on that day. Animals on a fee per head or animal unit month basis should be reported by the animal owner and not the landowner.

Contract and custom feeding farm or ranches - Report numbers of all animals or poultry on this farm or ranch on December 31, 2022. Animals and poultry kept on a contract or custom basis and moved or sold from this farm or ranch in 2022 should be reported as sold. Do NOT include fees received for commodities produced under a production contract.

Cattle, hogs, and poultry to exclude from the report form - Exclude animals or poultry kept on land rented to others or kept under a share arrangement on land rented to others. Exclude animals quartered in feedlots that were not located on this farm or ranch. Do not report the sales of animals bought and then resold within 30 days.

Number sold - Report all animals and poultry sold or moved from this farm or ranch in 2022, regardless of ownership or who shared in the receipts. Include animals sold for a landlord or given to a landlord or others in trade or in payment for goods or services. Do not report number sold of any hogs and pigs, cattle and calves, or poultry owned by you that were kept and sold from a location that you did not operate.

Number moved from this farm or ranch - For animals and poultry moved from this farm or ranch to another, such as for further feeding, report them as "sold." Cattle moved are not considered sold if they were moved to another farm or ranch for a short term, such as for winter wheat or corn stubble grazing, or during the winter to public grazing land. Exclude animals when moved for grazing on public or private AUM.

Cattle in feedlots - Exclude the following for this item: cattle and calves sold or moved off the farm or ranch for further feeding, veal calves or any calves weighing less than 500 pounds, cull or dairy cows fed only the usual dairy ration before being sold, and all cows and bulls.

SECTION 13 - HORSES, PONIES, MULES, BURROS, AND DONKEYS

Exclude horses owned by this farm or ranch but stabled elsewhere. Horses, mules, burros and donkeys that are on this farm or ranch should be reported regardless of ownership. Exclude feral equine.

SECTION 15 - OTHER POULTRY, LIVESTOCK AND LIVESTOCK PRODUCTS

Item 2 - Report the sales of only live animals. Report the gross value of sales for other poultry and livestock.

Item 3 - Include pelts from mink and rabbits.

Item 4 - Report eggs other than from chickens and turkeys.

Item 5 - Report the number of any other poultry hatched. Chickens and turkeys hatched should be reported in Section 14 - Chickens and Turkeys.

SECTION 16 - OTHER FARM COMMODITIES AND PRACTICES

Item 1 - Report only if there was a combined total of 20 or more trees and vines whose production was for sale. Exclude abandoned acres of orchards or vineyards which should be reported in Section 2, item 1d. Do not include acres harvested for personal or home use.

Item 2 - Do not include any berry acres used for personal or home use.

Item 3 - Report if there were any nursery, greenhouse, floriculture, sod, mushrooms, vegetable seeds, propagative materials grown for sale.

Item 4 - Report if there were any cultivated Christmas trees cut or to be cut in future years, short rotation woody crops in production whether or not they were harvested in 2022, or maple taps.

Item 5 - Report if there was any organic production raised under the National Organic Program (NOP) standards or acres transitioning for future NOP production.

Item 6 - Report if this farm or ranch had any aquaculture in 2022.

Item 7 - Report if any acres were rented from others on a cash basis. Exclude cash rent arrangements on federal trust lands or per head or AUM arrangements.

Item 8 - Report if there were any wind turbines, solar panels, methane digesters, or any other renewable energy producing systems, regardless of ownership. Include the value of energy sold from this operation in Section 22, Item 7.

Item 9 - A production contract is an agreement between a grower and contractor (integrator) that specifies that the grower will raise an agricultural commodity and that the contractor will provide certain inputs such as seed, livestock, etc. The grower receives a payment or fee from the contractor, generally after delivery, which is less than the full market price of the commodity.

SECTION 17 - FARM LABOR

Report the number of paid and unpaid farm or ranch workers who performed agricultural labor on this operation in 2022. Exclude contract labor except where specified (see Item 2). Include family members (paid and unpaid). Include workers such as bookkeepers, office workers, maintenance workers, etc., if their work was primarily associated with agricultural production on this operation.

Item 1 - Include any short term or temporary workers who may have worked only a few days. Exclude contract labor.

Item 2 - Report the number of migrant workers who worked on the operation for any length of time during 2022. Include both hired and contract labor. The definition of a migrant worker is a farm worker whose employment requires international or domestic travel that prevents the worker from returning to his or her permanent place of residence the same day.

SECTION 18 - CROP INSURANCE, CONSERVATION RESERVE PROGRAM AND OTHER GOVERNMENT PROGRAMS

Item 1 - Report all acres covered by any crop insurance policy in 2022. Include land in pasture insurance programs, and acres covered by guaranteed revenue policies.

Item 2 - Report all acres enrolled in a conservation program on September 30, 2022.

Items 2a - For conservation program acres, record the amount received in 2022.

Items 3 and 4 - Record agricultural program payments received in 2022.

Item 5 - Report the amount received for commodities placed under a Commodity Credit Corporation (CCC) loan during 2022. Include any amount received, even if the commodity was redeemed or forfeited prior to December 31, 2022. Exclude CCC loans to build crop storage facilities.

Item 6 - Report the total amount to repay CCC loans in 2022, regardless of the crop year the loan was made.

SECTION 19 - FOOD MARKETING PRACTICES

Include only edible agricultural products sold directly for humans to eat or drink, such as fruit, eggs, milk, meat, etc. Report only products grown or raised on this operation. Exclude products that you bought and resold within 30 days and non-edible products such as live animals, hay, cut flowers, nursery products, etc.

SECTION 20 - PRACTICES

Item 1 - Include internet access for farm use if either the farm or ranch or the producer's residence has access. Access includes internet via a cellular data plan on a smartphone or mobile device.

Item 2c - *Alley Cropping* is the growing of annual or perennial crops between rows of trees. The agricultural crop generates annual income while the tree crop matures. *Silvopasture* combines timber, livestock and forage production on the land. Trees provide longer-term returns, while livestock generates an annual income. *Forest farming* is the intentional management of woodlands to grow non-tree crops such as mushrooms, berries, and root crops under trees. *Windbreaks* are rows of trees and shrubs used to slow wind to protect soil, crop, or livestock, or for visual screening and shade. *Riparian forest buffers* are natural or planted trees, shrubs and grasses adjacent to water bodies to protect water resources from non-point source pollution.

SECTION 10 - SHEEP AND GOATS

Report goats based on utilization regardless of breed. Report pounds of wool shorn and mohair clipped in 2022 only.

SECTIONS 11, 12, AND 14 - HOGS AND PIGS, CATTLE AND CALVES, AND CHICKENS AND TURKEYS

Include all animals on this farm or ranch on December 31, 2022 owned by you, raised by you under contract, or kept by you for others. Include animals owned by you on unfenced lands, National Forest Land, Indian Reservation Land, cooperative grazing association land, or rangeland administered by the Bureau of Land Management on a per head, animal unit month (AUM), or lease basis. Animals in transit on December 31, 2022, should be reported by the person who had control of the animals on that day. Animals on a fee per head or animal unit month basis should be reported by the animal owner and not the landowner.

Contract and custom feeding farm or ranches - Report numbers of all animals or poultry on this farm or ranch on December 31, 2022. Animals and poultry kept on a contract or custom basis and moved or sold from this farm or ranch in 2022 should be reported as sold. Do NOT include fees received for commodities produced under a production contract.

Cattle, hogs, and poultry to exclude from the report form - Exclude animals or poultry kept on land rented to others or kept under a share arrangement on land rented to others. Exclude animals quartered in feedlots that were not located on this farm or ranch. Do not report the sales of animals bought and then resold within 30 days.

Number sold - Report all animals and poultry sold or moved from this farm or ranch in 2022, regardless of ownership or who shared in the receipts. Include animals sold for a landlord or given to a landlord or others in trade or in payment for goods or services. Do not report number sold of any hogs and pigs, cattle and calves, or poultry owned by you that were kept and sold from a location that you did not operate.

Number moved from this farm or ranch - For animals and poultry moved from this farm or ranch to another, such as for further feeding, report them as "sold." Cattle moved are not considered sold if they were moved to another farm or ranch for a short term, such as for winter wheat or corn stubble grazing, or during the winter to public grazing land. Exclude animals when moved for grazing on public or private AUM.

Cattle in feedlots - Exclude the following for this item: cattle and calves sold or moved off the farm or ranch for further feeding, veal calves or any calves weighing less than 500 pounds, cull or dairy cows fed only the usual dairy ration before being sold, and all cows and bulls.

SECTION 13 - HORSES, PONIES, MULES, BURROS, AND DONKEYS

Exclude horses owned by this farm or ranch but stabled elsewhere. Horses, mules, burros and donkeys that are on this farm or ranch should be reported regardless of ownership. Exclude feral equine.

SECTION 15 - OTHER POULTRY, LIVESTOCK AND LIVESTOCK PRODUCTS

Item 2 - Report the sales of only live animals. Report the gross value of sales for other poultry and livestock.

Item 3 - Include pelts from mink and rabbits.

Item 4 - Report eggs other than from chickens and turkeys.

Item 5 - Report the number of any other poultry hatched. Chickens and turkeys hatched should be reported in Section 14 - Chickens and Turkeys.

SECTION 16 - OTHER FARM COMMODITIES AND PRACTICES

Item 1 - Report only if there was a combined total of 20 or more trees and vines whose production was for sale. Exclude abandoned acres of orchards or vineyards which should be reported in Section 2, item 1d. Do not include acres harvested for personal or home use.

Item 2 - Do not include any berry acres used for personal or home use.

Item 3 - Report if there were any nursery, greenhouse, floriculture, sod, mushrooms, vegetable seeds, propagative materials grown for sale.

Item 4 - Report if there were any cultivated Christmas trees cut or to be cut in future years, short rotation woody crops in production whether or not they were harvested in 2022, or maple taps.

Item 5 - Report if there was any organic production raised under the National Organic Program (NOP) standards or acres transitioning for future NOP production.

Item 6 - Report if this farm or ranch had any aquaculture in 2022.

Item 7 - Report if any acres were rented from others on a cash basis. Exclude cash rent arrangements on federal trust lands or per head or AUM arrangements.

Item 8 - Report if there were any wind turbines, solar panels, methane digesters, or any other renewable energy producing systems, regardless of ownership. Include the value of energy sold from this operation in Section 22, Item 7.

Item 9 - A production contract is an agreement between a grower and contractor (integrator) that specifies that the grower will raise an agricultural commodity and that the contractor will provide certain inputs such as seed, livestock, etc. The grower receives a payment or fee from the contractor, generally after delivery, which is less than the full market price of the commodity.

SECTION 17 - FARM LABOR

Report the number of paid and unpaid farm or ranch workers who performed agricultural labor on this operation in 2022. Exclude contract labor except where specified (see Item 2). Include family members (paid and unpaid). Include workers such as bookkeepers, office workers, maintenance workers, etc., if their work was primarily associated with agricultural production on this operation.

Item 1 - Include any short term or temporary workers who may have worked only a few days. Exclude contract labor.

Item 2 - Report the number of migrant workers who worked on the operation for any length of time during 2022. Include both hired and contract labor. The definition of a migrant worker is a farm worker whose employment requires international or domestic travel that prevents the worker from returning to his or her permanent place of residence the same day.

SECTION 18 - CROP INSURANCE, CONSERVATION RESERVE PROGRAM AND OTHER GOVERNMENT PROGRAMS

Item 1 - Report all acres covered by any crop insurance policy in 2022. Include land in pasture insurance programs, and acres covered by guaranteed revenue policies.

Item 2 - Report all acres enrolled in a conservation program on September 30, 2022.

Items 2a - For conservation program acres, record the amount received in 2022.

Items 3 and 4 - Record agricultural program payments received in 2022.

Item 5 - Report the amount received for commodities placed under a Commodity Credit Corporation (CCC) loan during 2022. Include any amount received, even if the commodity was redeemed or forfeited prior to December 31, 2022. Exclude CCC loans to build crop storage facilities.

Item 6 - Report the total amount to repay CCC loans in 2022, regardless of the crop year the loan was made.

SECTION 19 - FOOD MARKETING PRACTICES

Include only edible agricultural products sold directly for humans to eat or drink, such as fruit, eggs, milk, meat, etc. Report only products grown or raised on this operation. Exclude products that you bought and resold within 30 days and non-edible products such as live animals, hay, cut flowers, nursery products, etc.

SECTION 20 - PRACTICES

Item 1 - Include internet access for farm use if either the farm or ranch or the producer's residence has access. Access includes internet via a cellular data plan on a smartphone or mobile device.

Item 2c - *Alley Cropping* is the growing of annual or perennial crops between rows of trees. The agricultural crop generates annual income while the tree crop matures. *Silvopasture* combines timber, livestock and forage production on the land. Trees provide longer-term returns, while livestock generates an annual income. *Forest farming* is the intentional management of woodlands to grow non-tree crops such as mushrooms, berries, and root crops under trees. *Windbreaks* are rows of trees and shrubs used to slow wind to protect soil, crop, or livestock, or for visual screening and shade. *Riparian forest buffers* are natural or planted trees, shrubs and grasses adjacent to water bodies to protect water resources from non-point source pollution.

SECTION 21 - PRODUCTION EXPENSES

Include farm production expenses paid by you or your landlord(s) for crops, livestock, or poultry produced on this farm or ranch in 2022 in Items 1 through 16. Include expenses associated with the generation of farm-related income reported in Section 22. Include expenses incurred in 2022 even if they were not paid in 2022. Estimate if exact figures are not known.

Contract growers or custom feeders - Do not report as production expenses the value of inputs provided by the contractor or livestock owner.

Item 2 - Include surfactants and oils and other products used to increase a chemical's effectiveness.

Item 6 - Report the purchase cost of all grains, silage, hay, commercially mixed and premixed feeds, ingredients, concentrates, etc., fed to livestock or poultry on this farm or ranch. Contract livestock and poultry growers should not report the value of feed that was provided by a contractor. Do not report the value of feed raised and fed on this farm or ranch as an expense.

Item 9 - Include the cost of repairs and upkeep of farm machinery, vehicles, buildings, fences, and other equipment used in the farm business. Include expenses for repairs to machinery and equipment used only for customwork if income from those machines is reported in Section 22. Exclude repairs to vehicles not used in the farm business. Exclude expenditures for the construction of new buildings or the cost of additions to existing buildings.

Item 10a - Include labor expense for the farm business for gross salaries and wages, commissions, dismissal pay, vacation pay, and bonuses paid to hired workers, family members, hired managers, administrative and clerical employees, and salaried corporate officers. Include cost for benefits such as employer's social security contributions, unemployment compensation, worker's compensation insurance, employer paid life and medical insurance expense, pension plans, etc.

Item 10b - Include the labor costs of workers furnished on a contract basis by labor contractor, crew leader, or cooperative for harvesting vegetables or fruit, shearing sheep, or similar farm activities. Report costs for repair work done by a construction contractor in Item 9. Report the cost of customwork or machine hire in Item 11.

Item 12a - Exclude rent paid for operator dwelling or other nonfarm property. Exclude the value of shares of crops or livestock paid to landlords.

Item 13 - Report all interest expenses paid in 2022 for the farm business. Include interest paid on CCC loans in Item 13b. Exclude interest associated with activities not related to production of crops or livestock on this farm or ranch, such as land or buildings rented to others, packing sheds, or feed mills that provided services to others. Exclude interest on owner/operator dwelling where the amount is separated from the interest on the land and buildings on this farm or ranch.

Item 14 - Include real estate property taxes you paid on the acres and buildings you owned and used in the farm business and property taxes on equipment or livestock. Exclude property taxes on land or buildings rented to someone else, or property taxes paid on other property not associated with the farm business.

SECTION 22 - INCOME FROM FARM-RELATED SOURCES

Report gross dollar amounts received before taxes and expenses.

Item 2 - Exclude rental income from nonfarm property.

Item 3 - Include only those forest products cut from this farm or ranch, not items cut from other nonfarm timber acreage. Exclude income from a sawmill business.

Item 7 - Include pollination fees.

SECTION 23 - FERTILIZERS, CHEMICALS, AND SOIL CONDITIONERS APPLIED

Fertilizer - Report acres on this farm or ranch on which commercial fertilizer was applied during 2022 only once, even if multiple applications were made. Estimate the acreage for spot treatments.

Chemicals - Include acres on which custom application of chemicals was applied. If multiple applications of chemicals for the same purpose (for example, herbicides) were applied on the same acres, report the acreage only once. If chemicals were applied for different purposes, report the acres for each purpose on which the chemicals were applied. Report agricultural

chemical expenditures in Section 21, Item 2. Estimate the acreage for spot treatments.

SECTION 24 - MACHINERY AND EQUIPMENT

Report the total on this farm or ranch, or normally on this farm or ranch and normally used on this farm or ranch, in the first column. Do not report obsolete or abandoned equipment. In the second column, report only the number manufactured in the last five years.

SECTION 25 - MARKET VALUE OF LAND, BUILDINGS, MACHINERY, AND EQUIPMENT

Item 1 - Estimate the value of the land, houses, barns, and other buildings for each of the three listed categories if they were sold in the current market. The real estate tax assessment value should not be used unless that value represents a full market value assessment and the land, house, and buildings could reasonably be assumed to be sold at that price. Do not deduct real estate marketing charges from your estimate. Report the total value, not the value on a per acre basis.

Item 2 - The estimated market value refers to all machinery and equipment kept primarily on this farm or ranch and used for the farm business. Report the value in its present condition, not the replacement or depreciated value. Include mobile implements, hand tools, and office supplies. Permanently installed equipment or equipment that is an integral part of a building should be included as a part of the value of land and buildings and reported in Item 1.

SECTION 26 - CONCLUSION

Item 1 - If the agricultural activity on your farm or ranch might be identified under a different name than is printed on the front of the form (for example, a farm name or another partner), please provide these names.

Item 2a - All farms and ranches should receive their own forms to complete. If you operated another farm or ranch, indicate whether you received a form for that farm or ranch.
