General

According to the National Agricultural Statistics Service in Alabama, there were 5.3 days suitable for fieldwork for the week ending Sunday, June 12, 2022. Precipitation ranged from 0.5 inches of rain to 7.8 inches. Average high temperatures ranged from the mid 70s to the low 90s. Average low temperatures ranged from the high 50s to the low 70s.

Crops

Most of the state received sufficient rain throughout the week. Crop conditions and soil moisture for much of the state remained mostly good and excellent. Corn fields continued silking but remained behind the previous year and five-year averages. Some cotton producers were concerned about delayed harvest due to large amounts of rain received in central Alabama.

Peanut planting neared completion while peanuts pegging had begun. Rain delayed soybean planting and winter wheat harvesting.

Livestock and Pastures

Cattle continued to be in mostly good condition across the state. Rainfall helped pasture conditions remain mostly good throughout the state.

Crop Progress for Week Ending 06/12/22

Crop stage	Prev year (percent)	Prev week (percent)	This week (percent)	5 Year avg (percent)
Corn - Silking.....	20	11	14	33
Cotton - Planted.....	98	91	95	96
Cotton - Squaring.....	4	4	7	11
Hay - 2nd Cutting.....	0	NA	2	3
Peanuts - Planted.....	95	83	90	92
Peanuts - Pegging.....	1	NA	4	4
Soybeans - Planted.....	68	72	86	72
Soybeans - Emerged.....	60	54	64	59
Soybeans - Blooming.....	1	NA	0	3
Winter wheat - Harvested...	36	30	48	48
