Hawaii Seed Crops

September 7, 2011

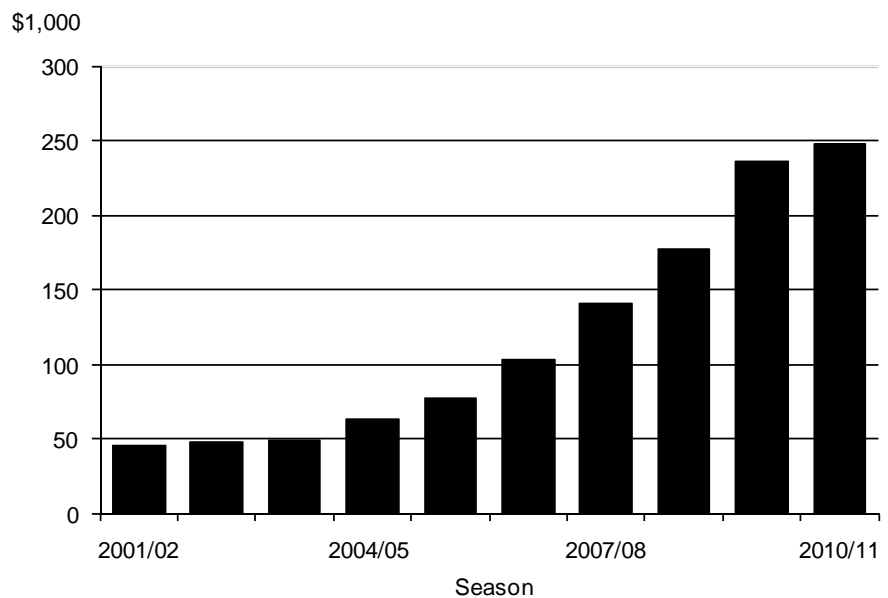

Seed Crop industry again valued at new record high \$247.2 million

The Hawaii Field Office of the United States Department of Agriculture's National Agricultural Statistics Service estimates the value of Hawaii's seed industry at a new record high of \$247.2 million for the 2010/11 season. This preliminary estimate represents a 5-percent increase from the 2009/10 revised estimate of \$236.4 million. Seed corn is estimated to account for \$236.4 million or 96 percent of the total value in 2010/11. A variety of other seed crops accounted for the remaining 4 percent.

Outshipments of seed are projected to total 9.8 million pounds during the 2010/11 season, down 19 percent from the revised 12.0 million shipped during the previous season.

Acreage harvested for all seed crops is expected to total a record high 7,100 acres during the 2010/11 season, up 9 percent from the previous season. ■
