USDA to gather cash rents data in Illinois

Springfield, IL – January 2025– The U.S. Department of Agriculture’s National Agricultural Statistics Service (NASS) will conduct the annual Cash Rents and Leases survey starting Feb. 3. The survey provides the basis for estimates of the current year’s cash rents paid for irrigated cropland, non-irrigated cropland, and permanent pasture. Over 241,000 survey recipients across the United States have been selected to complete the survey, including 9,289 in Illinois. It can be completed online at agcounts.usda.gov, by mail or phone. If respondents do not complete the survey by February 20, they may be contacted for an interview.

“Survey response from as many farm operators as possible ensures that cash rental rates accurately represent their locality,” said Brad Summa, director of the Heartland Regional Field Office. “The data from the Cash Rents and Leases survey will also give landowners a useful tool in negotiating rental agreements and making other business decisions

for their agricultural operations.”

Information from this survey is also used in the Farm Service Agency Conservation Reserve Program as an alternative soil rental rate prior to finalizing new rates each year.

In accordance with federal law, NASS keeps survey responses confidential. The data will be available in aggregate form only to ensure that no individual producer or operation can be identified. NASS will publish the state-level data on Aug. 1 and county-level data on Aug. 22 at <https://quickstats.nass.usda.gov/>.

For assistance with the survey, or for more information, contact the NASS Heartland Regional Field Office at (800) 551-1014 or visit https://www.nass.usda.gov/Surveys/Guide_to_NASS_Surveys/Cash_Rents_by_County/index.php
