Corn forecasted yield remained unchanged from the October 1 forecast, but new survey results by district saw 3 district yields increase, 3 district yields decrease, and 3 district yields remain equal to the October 1 district forecasts. Northeast Iowa is anticipated to have the highest yield in the state, with 204 bushels per acre. The largest production is expected in West Central Iowa, at 397 million bushels.

Soybean yield is forecast to be up in 3 Iowa districts from the October 1 forecast, all coming from the southern third of the state. West Central Iowa is expected to have the highest yield in the state, with 55.5 bushels per acre. The largest production is also expected in West Central Iowa, at 79.8 million bushels.

The forecasts in this report are based on November 1 conditions and do not reflect weather effects since that time. The next corn and soybean production estimates will be published in the Crop Production – Annual Summary report which will be released in January 2020.

Corn Yield: November 1, 2019
Bushels per Acre

State Average: 192.0 bu/acre

Soybean Yield: November 1, 2019
Bushels per Acre

State Average: 53.0 bu/acre
