USDA CONDUCTING JUNE HOGS AND PIGS SURVEY

Jackson, MS – The U.S. Department of Agriculture’s National Agricultural Statistics Service (NASS) is contacting producers for the June Hogs and Pigs Survey. The agency will survey pork producers for detailed information on market hog and breeding stock inventories as well as pig crop and farrowing intentions.

“According to the most recent *Quarterly Hogs and Pigs* report in March, there were 74.6 million hogs and pigs in the United States,” said Esmerelda Dickson, State Statistician, Mississippi Field Office. “The June survey and resulting report will continue to provide important indicators for the industry of what changes are occurring.”

NASS will mail the questionnaires to all producers selected for the survey in mid-May. To ensure all survey participants have an opportunity to respond, NASDA interviewers will contact producers who do not respond by mail or online.

The data gathered in this survey allow NASS to accurately measure and report conditions and trends in the U.S. pork industry over the course of the year. The information is used by all sectors of the industry, including producers themselves, to help make sound and timely business decisions.

NASS will publish survey results in its quarterly *Hogs and Pigs* report on June 27, 2024. This and all NASS reports are available online at www.nass.usda.gov/Publications. For more information, please call NASS Delta Regional Office at (800) 327-2970.

###

NASS is the federal statistical agency responsible for producing official data about U.S. agriculture and is committed to providing timely, accurate, and useful statistics in service to U.S. agriculture.

USDA is an equal opportunity provider, employer, and lender.
