**Volume 45, Number 41      Weekly Summary for November 14 – November 20      Issued November 21, 2022**

Rainfall totals in Oklahoma averaged 0.35 of an inch. According to the November 15<sup>th</sup> US Drought Monitor Report, drought conditions were rated 100 percent abnormally dry to exceptional drought, unchanged from the previous week. Additionally, 98 percent of the state was in the moderate drought to exceptional drought categories, unchanged from the previous week. Statewide, temperatures averaged in the low 30's. Topsoil moisture conditions were rated mostly very short to adequate, while subsoil moisture conditions were rated very short to short. There were 5.8 days suitable for fieldwork.

**Small Grains:** Winter wheat emerged reached 90 percent, up 1 point from the previous year and up 1 point from normal. Canola planted reached 95 percent, up 1 point from the previous year and up 3 points from normal. Canola emerged reached 78 percent, up 1 point from the previous year but down 1 point from normal. Rye emerged reached 90 percent, up 2 points from the previous year and up 4 points from normal. Oats planted reached 72 percent, up 9 points from the previous year and up 10 points from normal. Oats emerged reached 42 percent, down 2 points from the previous year but up 2 points from normal.

**Row Crops:** Sorghum harvested reached 97 percent, up 5 points from the previous year and up 9 points from normal. Soybeans harvested reached 82 percent, up 3 points from the previous year and up 9 points from normal. Peanuts harvested reached 95 percent, up 6 points from the previous year and up 8 points from normal. Cotton harvested reached 75 percent, up 3 points from the previous year and up 11 points from normal.

**Hay:** The fifth cutting of alfalfa hay reached 65 percent, up 11 points from the previous year and up 5 points from the previous week. The fourth cutting of other hay reached 60 percent, up 19 points from the previous year and up 5 points from the previous week.

**Pasture and Livestock:** Livestock conditions are holding with markets steady to lower. Many producers have reduced livestock numbers. Pasture and range condition was rated at 75 percent very poor to poor. Livestock condition was rated at 77 percent fair to good.
