Volume 47, Number 17

Weekly Summary for June 3 – June 9, 2024

Issued June 10, 2024

Rainfall totals in Oklahoma averaged 1.58 inches. According to the June 4th US Drought Monitor Report, drought conditions were rated 27 percent abnormally dry to exceptional drought, down 38 points from last year. Additionally, 15 percent of the state was in the moderate drought to exceptional drought categories, down 36 points from the previous year. Statewide, temperatures averaged in the upper 70's to lower 80's. Topsoil and subsoil moisture conditions were rated adequate to short. There were 5.2 days suitable for fieldwork.

Small Grains: Winter wheat progressed due to favorable weather conditions throughout the week. Winter wheat harvested reached 48 percent, up 26 points from the previous week and up 31 points from normal. Canola coloring reached 85 percent, up 18 points from the previous week and up 7 points from normal. Canola harvested reached 14 percent, up 9 points from the previous week and up 3 points from normal. Rye harvested reached 28 percent, up 18 points from the previous week and up 10 points from normal. Oats headed reached 90 percent, up 11 points from the previous week and up 17 points from normal. Oats harvested reached 9 percent, up 4 points from the previous week.

Row Crops: Corn conditions improved across the state due to recent rains. Corn emerged reached 96 percent, up 9 points from previous week and up 22 points from normal. Corn silking reached 5 percent, up 5 points from previous week and up 4 points from normal. Sorghum planted reached 54 percent, up 7 points from previous week and up 14 points from normal. Soybeans planted reached 50 percent, up 13 points from previous week but down 2 points from normal. Peanuts planted reached 90 percent, up 20 points from previous week and up 30 points from normal. Upland Cotton planted reached 54 percent, up 6 points from previous week and up 4 points from normal.

Hay: The first cutting of alfalfa hay reached 78 percent, up 27 points from previous week and up 15 points from normal. The first cutting of other hay reached 57 percent, up 15 points from previous week and up 7 points from normal.

Pasture and Livestock: Pasture and range condition was rated at 79 percent good to fair. Livestock condition was rated at 85 percent good to fair.
