

Agricultural Chemical Usage Postharvest Applications

Beginning in May 2010, NASS agricultural chemical use data are published to the Quick Stats 2.0 database only (full text publications have been discontinued).

The latest data releases are available at:

http://www.nass.usda.gov/Surveys/Guide_to_NASS_Surveys/Chemical_Use/index.asp

The screenshot shows a Windows Internet Explorer browser window displaying the NASS website. The address bar shows the URL: http://www.nass.usda.gov/Surveys/Guide_to_NASS_Surveys/Chemical_Use/index.asp. The page header includes the USDA logo and the text "United States Department of Agriculture National Agricultural Statistics Service". Below the header is a navigation menu with links for Home, About NASS, Newsroom, Publications, Data and Statistics, Census, Surveys, Help, and Contact Us. The main content area is titled "Surveys" and "Agricultural Chemical Use Program". It contains a search box, a "Browse NASS by Subject" sidebar, and a "Latest Releases" section. The "Latest Releases" section lists three releases: "2011 Fruits - released August 1, 2012", "2011 Barley and Sorghum - released May 16, 2012", and "2010 Vegetables - released July 27, 2011". Each release has links for "Release Highlights", "Methodology", "Data Tables", and "Advanced Database Search". The browser's taskbar at the bottom shows several open applications, including "NASS - Publication...", "NASS - Surveys - ...", "MyMenu", "Outlook Today - Mi...", and "Chem Use_Postha...".
