#### General

According to the National Agricultural Statistics Service in South Carolina, there were 6.2 days suitable for fieldwork for the week ending Sunday, July 14, 2024. Precipitation totals from available reporting stations ranged from trace amounts to over 4 inches of rain. Average high temperatures ranged from the high 80s to the low 100s. Average low temperatures ranged from the high 60s to the mid 70s.

#### Crops

Most of the state received some rain last week, with the Pee Dee and Midland regions receiving the most precipitation. Despite the rain, drought conditions continued to worsen due to high temperatures and winds. Corn fields struggled across the state and fields that were planted late were reported to be in particularly poor shape. Soybeans were reported to be in better shape, but still in need of more rain. Many operators continued to be unable to conduct a second cutting of hay due to dry conditions. Peaches continued to be harvested at a strong rate, with harvest expected to be completed in the coming weeks.

#### **Livestock and Pastures**

Cattle were in mostly good to fair condition, while pastures were mostly fair to poor. Pastures continued to struggle in most areas of the state. Reporters noted that some operators sold some of their cattle to preserve their grazing and hay inventories.

# **Crop Progress for Week Ending 7/14/24**

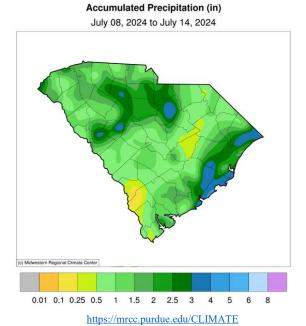

Crop stage	Prev year	Prev week	This week	5 Year avg
	(percent)	(percent)	(percent)	(percent)
Corn - Mature	27	22	40	19
Cotton - Squaring	59	65	82	67
Cotton - Setting Bolls	16	22	38	24
Hay - 2nd Cutting	35	44	51	36
Peaches - Harvested	68	64	72	67
Peanuts - Pegging	78	68	83	75
Soybeans - Emerged	94	93	97	95
Soybeans - Blooming	23	24	36	22
Soybeans - Setting Pods	5	2	12	2

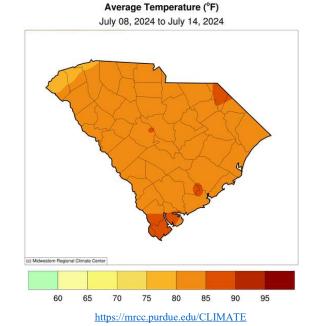

### Conditions for Week Ending 7/14/24

Crop	Very poor	Poor	Fair	Good	Excellent
	(percent)	(percent)	(percent)	(percent)	(percent)
Cattle	5	19	28	44	4
Corn	33	32	23	12	0
Cotton	10	13	36	39	2
Pasture and range	16	31	46	7	0
Peanuts	2	9	34	51	4
Soybeans	9	17	41	33	0

### Soil Moisture for Week Ending 7/14/24

Topsoil	Previous week	This week		
	(percent)	(percent)		
Very short	28	36		
Short	31	35		
Adequate	38	27		
Surplus	3	2		
Subsoil	Previous week	This week		
	(percent)	(percent)		
Very short	27	35		
Short	41	38		
Adequate	30	26		
Surplus	2	1
