1/ Products manufactured do not necessarily show utilization of milk produced in the state because of interstate shipments of milk.

No adjustment has been made for shipments of milk and cream between states differing in the test of milk produced.

2/ Milk equivalent of other dairy products, including items produced by fewer than 3 plants.

3/ Net total accounts for fat recovered from whey cream and used for making butter and the amount of fat from butter and condensed milk used in making ice cream.
