– Data does not meet publication standards but is published in "Other counties" or represents zero.

¹ Livestock county estimates are set using raking. This process utilizes county level livestock information from the census of agriculture, administrative data, and current year state-level Agricultural statistics Board (ASB) inventory and production estimates. Full details on this new methodology are available at: www.nass.usda.gov/Data_and_Statistics/County_Data-Files/Livestock_County_Estimates/index.php
